

Rigert Treppenlifte AG Expands Home Elevators Installation Services for Two Story Homes Across Switzerland

March 17, 2026

Küssnacht am Rigi, SZ - March 17, 2026 -
Rigert Treppenlifte AG, a leading Swiss mobility solutions provider with over 60 years of experience, announces expanded installation services for residential elevators and platform lifts designed specifically for two-story homes throughout German, French, and Italian-speaking regions of Switzerland.

The expansion addresses growing demand from Swiss homeowners seeking to enhance accessibility and maintain independence as they age in place. The company's comprehensive range of mobility solutions includes stairlifts, platform lifts, home elevators, and wheelchair lifts, all tailored to meet diverse accessibility requirements in residential settings.

As Switzerland's population continues to age, Rigert Treppenlifte AG is seeing increased interest from homeowners who want to future-proof their residences. They want to ensure that their expanded installation services ensure that enable residents across all linguistic regions of Switzerland have access to premium

mobility solutions that seamlessly integrate into their homes while preserving architectural integrity.

The company's installation process begins with personalized consultation services, where technical specialists visit homes to assess specific mobility needs and architectural considerations. This approach ensures that each lift system is customized to match individual requirements, whether for narrow staircases, outdoor installations, or wheelchair accessibility. The company's own certified technicians handle all installations, maintaining quality standards developed over six decades of operation.

Rigert Treppenlifte AG has established partnerships with healthcare facilities and senior living communities across Switzerland, reinforcing its position as a trusted provider of mobility solutions. The company's platform lifts and wheelchair lifts have become essential features in both private residences and public buildings, enabling individuals with mobility challenges to navigate different levels effortlessly.

The expanded services come as accessibility awareness increases throughout Switzerland. Tourist destinations including Zurich, Lucerne, and Interlaken have made significant improvements to ensure accessibility for visitors with mobility challenges, reflecting a broader societal commitment to inclusive design. Rigert Treppenlifte AG's residential solutions complement these public accessibility initiatives by ensuring that individuals can maintain mobility within their own homes.

As part of the Garaventa Group, Rigert Treppenlifte AG combines Swiss engineering precision with decades of mobility expertise. The company maintains the industry's most comprehensive customer service network, providing ongoing maintenance and support to ensure long-term reliability of installed systems.
