

Tiles Workshop LLC Announces New Permanent Mosaic Lamp Workshop Studios Opening in Dallas and St. Louis

March 18, 2026

Dallas, TX - March 18, 2026 -
Tiles Workshop LLC, a creative experiences company specializing in hands-on Turkish mosaic lamp-making workshops, announces the opening of two permanent studio locations in Dallas and St. Louis scheduled for April 2026. The new facilities will offer expanded access to the company's signature Mosaic Lamp Workshop experiences, where participants create their own illuminated artworks using traditional Turkish techniques.

The Dallas studio will feature dedicated weekday workshops designed for after-work creative sessions, while both locations will accommodate weekend events for families, corporate teams, and social gatherings. Each workshop provides participants with all necessary materials, step-by-step instruction from experienced guides, and complimentary Turkish coffee and baklava during the creative process.

"We built these studios to be spaces where creativity meets community," said Matt Yigit, founder of Tiles Workshop LLC. "Our goal has always been to make traditional Turkish mosaic art accessible to everyone,

regardless of artistic experience. These permanent locations allow us to offer more consistent scheduling and create a dedicated environment where people can disconnect from daily stress and connect with their creative side."

The expansion comes as Tiles Workshop LLC continues to experience growing demand for experiential learning opportunities that combine cultural education with hands-on creativity. The company currently operates workshops in multiple cities across Texas and Ohio, serving individuals, tourists, and corporate groups seeking unique team-building experiences.

Beyond the in-person workshops, Tiles Workshop LLC offers Turkish Mosaic Lamps DIY kits that bring the creative experience directly to customers' homes. These comprehensive kits include colored glass pieces, brass frames, LED lighting components, and detailed instructions, enabling participants nationwide to engage with the art form at their own pace.

The timing of the Dallas studio opening positions the facility to serve increased visitor traffic expected during the 2026 FIFA World Cup matches scheduled in the city. However, the primary focus remains on serving local communities year-round with regular workshop schedules and private event options.

The Turkish Mosaic Lamp Workshop experience typically runs two to three hours, during which participants select from hundreds of colorful glass tiles to create unique geometric or floral patterns on their lamp bases. The process requires no prior artistic experience, as instructors guide each step from design conception through final assembly.

Corporate groups have increasingly turned to these workshops as alternatives to traditional team-building activities, finding that the collaborative creative process naturally encourages communication and problem-solving in a relaxed environment. The workshops also serve as popular venues for birthday celebrations, bachelorette parties, and family gatherings.

Tiles Workshop LLC has gained recognition from regional tourism organizations including Visit Plano and Visit Dallas, which highlight the workshops as creative attractions for both residents and visitors. The company's founder Yigit was named to the Eventex Awards Power List 2025, recognizing the 50 Most Influential People in Events in the U.S. and Canada, highlighting his impact on the experiential events industry.

Founded in Dallas, Tiles Workshop LLC has grown its presence by offering traditional Turkish creative art experiences through modern educational formats. The company maintains partnerships with venues across

ten states while continuing to expand its reach through at-home DIY offerings and new permanent locations.
