Access Interiors Expands Office Refurb Services to Meet Growing Northamptonshire Demand

June 23, 2026

Cambridge, CB - June 23, 2026 -
Access Interiors Ltd, a commercial project management company with nearly three decades of experience, announces the expansion of its comprehensive office refurbishment services to better serve businesses throughout Northamptonshire. The company reports increased demand for workspace transformation projects as organizations seek to modernize their facilities and optimize productivity.

The expansion comes as businesses across Northamptonshire increasingly recognize the importance of well-designed workspaces in attracting talent and improving operational efficiency. Access Interiors, established in 1994, brings specialized expertise in commercial interiors, workspace planning, and comprehensive project management to organizations seeking to transform their office environments.

"We're seeing unprecedented interest from Northamptonshire businesses looking to reimagine their workspaces," said Martin Dawson, Director of Operations at Access Interiors. "Companies are realizing that strategic office refurbishment can significantly impact employee satisfaction and productivity while avoiding the disruption and expense of relocation."

The company's Office Refurbishment Northamptonshire services encompass everything from minor interior updates to extensive commercial transformations. Access Interiors manages all aspects of refurbishment projects, including space planning, partition systems, suspended ceilings, commercial flooring installation, electrical systems, and air conditioning. The company also specializes in mezzanine floor installations, providing businesses with innovative solutions to maximize existing space.

Access Interiors distinguishes itself through its comprehensive project management approach, coordinating with contractors, suppliers, and stakeholders to ensure projects are completed on schedule and within budget. The company's services extend beyond traditional refurbishment to include office relocations, movement management, and dilapidations services for businesses at the end of lease agreements.

The expansion reflects broader trends in commercial property management, as businesses increasingly view office design as a strategic investment rather than a simple operational expense. Modern office refurbishments often incorporate flexible workspace solutions, improved lighting and ventilation systems, and technology infrastructure upgrades to support hybrid working models.

Access Interiors also offers specialized solutions including structural platforms, custom flooring systems, and load-bearing commercial flooring suitable for various industrial and commercial applications. The company's mezzanine flooring solutions have proven particularly popular among warehouse and distribution facilities seeking to increase capacity without expensive building extensions.

Based in Cambridge and Ely, Access Interiors has built a reputation for delivering tailored solutions that meet specific performance requirements and budgets. The company maintains access to an extensive range of modern interior products and works closely with clients throughout the planning and implementation phases to ensure optimal outcomes.

Access Interiors Ltd specializes in commercial project management and office fit-out services throughout the East of England. Since 1994, the company has provided comprehensive interior solutions including office design, space planning, refurbishments, relocations, and specialized installations such as mezzanine floors and partition systems. The company serves businesses across multiple sectors, delivering projects that range from minor updates to complete commercial transformations.
