

Custom Software Development Company, Cloud Custom Solutions (CCS), Earns National Minority Certification

April 06, 2016

April 06, 2016 - PRESSADVANTAGE -

Cloud Custom Solutions (CCS), a fast emerging custom web and mobile applications development company in Arizona, USA announced today that it received national certification as a Minority-Owned business by the Pacific Southwest Minority Supplier Development Council (MSDC), a regional certifying partner of the National Minority Supplier Development Council (NMSDC).

NMSDC's national standard of certification is a scrupulous process that includes an in-depth review of the business and an on-site personal inspection. The certification process is designed to confirm that the business is at least 51 percent owned, operated and controlled by an ethnic minority. By including minority-owned and certified businesses among their trusted suppliers, corporations demonstrate their commitment to nurturing diversity and the continued development of their vendor and supplier diversity programs.

About Cloud Custom Solutions

Ben Fatola, CEO of Cloud Custom Solutions, who has worked with major entities like Microsoft, City of Phoenix and WBEC-West stated that, "At Cloud Custom Solutions we take complex ideas and develop intuitive web applications, designed with the end user in mind. We humanize the latest cutting-edge cloud technologies to build interactive experiences that solve big problems and deeply engage users."

Their flagship product, ESupplier Portal is a revolutionary new automated vendor portal registration software that helps eliminate the headache of taking hours and hours to register a business on corporation portals. Offering truly automated submissions to supplier portals CCS claims that this revolutionary software is a must for any small or diverse business looking to save time, money and resources.

Similarly Connection Revolution is Cloud Custom Solutions' cutting-edge conference event management solution, that does more than just event creation and management. It is a revolutionary new intuitive software that takes event management to a whole new level offering world-class features including an intuitive business matchmaking module that mitigates risk by finding the best supplier matches possible, easily customizable landing page templates, past and present event analytics and more. It also empowers corporations and multinationals to conduct their own business matching events quickly and easily.

Proudly certified, Cloud Custom Solutions continues to specialize in delivering exceptional quality custom software solutions based on cloud technology for companies, government entities and non-profit organizations.

Strictly adhering to the best practices in the software development industry they produce tailored web-based software solutions embracing SAAS (software as a service), SOA (service-oriented architecture), and OOP (object oriented programming) methodologies and cater to businesses of all sizes.
