

Bare Skin and Beauty Salon Hillarys Expands Advanced Acne Treatment Services to Meet Growing Demand

March 24, 2026

March 24, 2026 -
Bare Skin and Beauty Salon Hillarys at Westfield Whitfords has expanded its specialized acne treatment services in response to increasing demand from clients seeking professional solutions for persistent skin concerns. The expansion includes enhanced treatment protocols combining multiple advanced technologies to address various forms of acne and related skin conditions.

The Hillarys-based skin care clinic has integrated several cutting-edge treatment modalities into its acne management programs, including LED light therapy, hydradermabrasion, and specialized medi-facials. These services complement the salon's existing comprehensive range of skin treatments, which spans from medical-grade facials to advanced procedures such as skin needling and IPL photo rejuvenation.

"The demand for professional acne treatments has increased significantly over the past year as more clients recognize the importance of addressing skin concerns with clinical-grade solutions rather than

over-the-counter products alone," said a Bare Skin and Beauty spokesperson. "Our expanded services allow us to create customized treatment plans that target the root causes of acne while promoting overall skin health and preventing future breakouts."

The salon's approach to acne management combines multiple treatment technologies to address different aspects of the condition. LED light therapy targets bacteria and reduces inflammation, while hydradermabrasion provides deep cleansing and gentle exfoliation. The clinic also utilizes specialized products from professional skincare ranges including Medik8, O Cosmedics, and Dermaviduals to enhance treatment outcomes.

Bare Skin and Beauty Salon Hillarys acne treatment programs are designed to accommodate various skin types and severity levels. The clinic's trained therapists conduct thorough skin assessments to determine the most appropriate combination of treatments for each client's specific needs. This personalized approach extends to the salon's membership programs, which provide regular treatments at scheduled intervals to maintain consistent results.

The expansion comes as the beauty industry sees growing interest in results-driven skincare solutions. Recent industry data indicates that professional acne treatments have become increasingly sought after, particularly among adults experiencing hormonal or stress-related breakouts. The salon's location at Westfield Whitfords provides convenient access for clients throughout the northern suburbs of Perth.

Beyond acne treatments, the clinic offers a comprehensive menu of skin and beauty services including microdermabrasion, lymphatic therapy facials, IPL hair removal, and body treatments. The salon has also incorporated wellness elements into its service offerings, with mindfulness facials that combine skincare with relaxation techniques.

Bare Skin and Beauty Salon Hillarys at Westfield Whitfords is a full-service skin care clinic specializing in advanced facial and body treatments. The salon operates with a focus on combining professional-grade products with innovative treatment technologies to deliver measurable results for various skin concerns. The clinic maintains partnerships with leading skincare brands and continuously updates its treatment protocols to incorporate the latest developments in aesthetic medicine and skincare science.
