

# Unlimited Comfort Mattress Factory Announces Expanded Delivery Network Across Southwest Florida

*March 24, 2026*

SARASOTA, FL - March 24, 2026 -
Unlimited Comfort Mattress Factory, a Sarasota-based manufacturer, announced today the expansion of its delivery network to serve additional communities throughout Southwest Florida, including enhanced coverage in Bradenton, Lakewood Ranch, Naples, North Port, and Venice.

The expansion follows increased demand for locally manufactured mattresses in the region. The company, which operates both manufacturing facilities and serves as a mattress store in Lakewood Ranch, has extended its delivery radius to accommodate customers seeking alternatives to mass-produced bedding options.

"We are responding to growing regional demand by expanding our delivery infrastructure," said a spokesperson for Unlimited Comfort Mattress Factory. "This expansion allows us to serve more Southwest Florida communities with locally manufactured products that meet specific sleep requirements, from extra-firm support to softer comfort preferences."

The Sarasota manufacturer produces five mattress models at its local facility. The Cloud 11th model incorporates the American Comfort2000 Pocketed Coil System with mini comfort micro coils. The Diamond model features Energex and pulse latex foam with three-zoned pocketed coil construction. The Infinity model uses all-foam memory construction, while the Paradise model combines the American Comfort800 Pocketed Coil System with Energex foam. The SRQ model provides extra-firm support through pulse latex foam and three-zoned coil technology.

The expansion coincides with the company's implementation of a lifetime comfort adjustment program, which allows customers to modify mattress firmness after purchase. This service addresses changing sleep needs over time and represents a shift from traditional one-time purchase models in the bedding industry.

As a mattress store in Lakewod Ranch that customers utilize for custom bedding solutions, the company has also expanded its specialty manufacturing to include mattresses for recreational vehicles and boats. This niche service addresses a market segment that standard retailers typically do not serve.

The manufacturer provides a 15-year warranty on all products and maintains an educational resource center featuring sleep health information and mattress selection guidelines. These resources assist customers in understanding mattress construction and sleep support requirements. The company has received multiple five-star reviews from customers, with detailed feedback available at the Unlimited Comfort Mattress Factory website.

The expanded delivery network now covers a radius extending from Sarasota to Naples in the south and Venice to the north, encompassing major population centers throughout Southwest Florida. Delivery scheduling and logistics have been restructured to accommodate the increased service area.

Unlimited Comfort Mattress Factory operates from its showroom and manufacturing facility at 4051 Clark Road in Sarasota. The facility houses both production operations and product displays, allowing customers to examine mattress construction and test different comfort levels. The company's local manufacturing approach enables customization options and shorter delivery times compared to products shipped from out-of-state facilities.

The Southwest Florida mattress market has experienced growth as more consumers seek locally produced goods and customizable sleep solutions. The expansion positions the company to serve this growing market segment while maintaining its manufacturing operations in Sarasota.
