
Vertical Entertainment Announces New Bike and Bungee Combo

March 26, 2026

March 26, 2026 -
Vertical Entertainment NH, a family-owned mobile event rental company with more than 15 years of operations throughout New England, has announced the addition of a Vertical Bikes and Bungee combination attraction to its 2026 inventory. The Gilford-based company describes the setup as the first attraction of its kind currently available for event rental in the United States.

"2026 is the most significant year we have had in terms of what we are bringing to events across the region. The Vertical Bikes and Bungee combination is something that has not been available in this market before, and the game show experience gives clients an entirely new way to engage their guests," said Tim Ford, Manager of Vertical Entertainment NH.

The attraction places two participants side by side on vertical bikes for a timed race, with built-in timers recording each rider's elapsed time as they pedal to a height of 24 feet. Three bungee stations are mounted to the rear of the structure, allowing up to three additional participants to bounce and flip simultaneously,

bringing total occupancy to five at one time. According to the company, the configuration is designed to support continuous participant rotation across an event, which the company notes makes it well-suited to outdoor festivals, town celebrations, college campus events, and large corporate gatherings.

Vertical Entertainment NH also announced the addition of a live game show rental service for the 2026 season, structured in two service tiers. The self-hosted tier, which the company refers to as Backstage Pass, begins at $795 for up to three hours and provides podiums and game software operated by the client. The fully hosted tier, called Under the Lights, begins at $1,495 and includes a professional on-site game show host, contestant podiums with LED scoring displays, a host-controlled 24-inch touchscreen production podium, large-format display screens, and branded backdrops.

Nine interactive game formats are available, including classic trivia, a Jeopardy-style format, a Family Feud-style format, a Wheel of Fortune-style format, and five additional options, with the ability to run multiple formats within a single event. The company states the service is suitable for corporate team-building functions, school and college events, community fundraisers, festivals, and private parties.

Vertical Entertainment NH has served events across close to 100 cities in New England, with a documented service area spanning communities throughout New Hampshire as well as events in Massachusetts, Maine, and Vermont. The company's broader 2026 inventory also includes a 360-degree photo booth, a Mirror X interactive photo booth, carnival-style table games, themed inflatable combination units, and an obstacle course attraction, with additional items expected throughout the year.

Event organizers may visit Vertical Entertainment NH at verticalentertainmentnh.com to review the full 2026 inventory and request an event consultation, which the company provides at no charge. The company advises event organizers to confirm availability early for peak-season dates, particularly for newly added attractions.
