ExclusivelyHybrid.com Announces New Financing for Hybrid Battery Replacement Services

April 08, 2016

April 08, 2016 -

ExclusivelyHybrid.com specializes in the repair and replacement of hybrid car batteries in South Florida. Owned and operated by long time Auto industry veteran Alex Valler, the company has now announced a new financing option to help owners get the service they need without having to pay for it all upfront. This new option will open the market to many new customers who otherwise may not be able to afford a new hybrid car battery through the traditional sources including new car dealerships who at times can be costly.

Hybrid Cars are quickly becoming a popular driving option which in turn is creating a need for high quality repair and maintenance for these vehicles and this is exactly where Exclusively Hybrid LLC comes into play.

?What we do, along with the financing plans we have introduced, all goes back to benefit the environment. We help people who care for the environment by providing cost effective ways to maintain their Hybrid vehicles. That?s what we?ve been trying to promote and our customers value us for it,? explains owner Alex Valler.

As far as can be seen, the new financing option for the replacement of the hybrid car battery is the first of its

kind to be offered in the South Florida Market. Here are the terms of Financing now available through Exclusivelyhbrid.com for qualified applicants:

Deferred Interest for 6 months. Exclusivelyhybrid.com now offers installment payment plan that offers six (6) months of 0% interest rate. Of course if the balance is not paid in full by the end of sixth month there will be a retroactive finance charge.

These new financing options should open the doors to the hybrid owner community and provide them with the additional options they need to get the most out of their hybrid ownership experience.

Mr. Valler is a long time veteran of the auto industry and is personally a highly trained Hybrid Auto Repair and maintenance expert. His experience and training allows him to provide the highest quality Hybrid Services at rates that are much more affordable than those charged at most of the dealerships. This combination has made his services in high demand over the past few years and he sees this growing in the foreseeable future.

If you are in need of a Hybrid car battery repair or replacement service in South Florida and you think financing may help you get the services you need, feel free to contact Alex Valler, owner of Exclusively Hybrid LLC through the contact details below or visit them on the web at www.ExclusivelyHybrid.com.
