

Positive Impressions Enhances Veterinary Practice Efficiency with Expanded Prescription Labeling Solutions

March 31, 2026

BLACK RIVER FALLS, WI - March 31, 2026 - PRESSADVANTAGE -

Positive Impressions LLC has expanded its selection of pre-printed sheet labels and compatible pharmacy labeling options to support veterinary practices in accurate medication dispensing and client safety.

The company now highlights several specialized pre-printed sheet labels designed for use in veterinary pharmacies. The PSS-19 Pre-Printed Sheet Label measures 1 1/2" x 1/2" and features fluorescent orange coloring with the statement "Federal law prohibits the transfer of this drug to any person other than the patient for whom it was prescribed." Available in packs of 500 labels, this product helps practices identify filled syringes and reduce the risk of medication transfer errors.

Complementing this, the PSS-18 Pre-Printed Sheet Label also measures 1 1/2" x 1/2" and uses fluorescent yellow material pre-printed specifically for BUPIVACAINE. Offered in packs of 500 labels, it assists veterinary staff in distinguishing medications during preparation and administration, contributing to safer handling of controlled substances. These labeling solutions not only enhance workflow efficiency but also promote better communication within veterinary teams, ensuring that each patient receives the correct treatment safely and

effectively. By utilizing these clearly marked labels, veterinary practices can prioritize patient safety and maintain compliance with regulatory standards.

Positive Impressions further provides the TL-20/M-550 Dymo Pharmacy Labels, which integrate with common veterinary practice management software, including Avimark, DVMAX, PAWS Practice, Vetstar, V-Tech, Complete Clinic, and IntraVet. These labels support streamlined prescription processing in busy clinic environments.

These labeling solutions join Positive Impressions' established line of prescription-related products, such as the BAG19 Prescription Bag. This paper bag measures 5" x 2" x 10" and comes in packs of 250 with an all-over paw print design, intended for dispensing prescriptions and ensuring proper at-home care instructions reach pet owners.

Additional flat-bottom bags, including the FLBAG15, offer versatility for sending home prescriptions, informational materials, treats, or purchases, supporting various practice needs from new puppy kits to routine medication distribution.

The company also supplies personalized die-cut paw stickers, such as the VSPA1, which measures 3.5" x 3.5" and is available in boxes of 250. These stickers allow practices to add custom information, enhancing branding on items including prescription packaging.

Veterinary prescription labels play a critical role in daily operations, where accurate identification of medications helps prevent errors and complies with regulatory standards for dispensing. Practices use sheet labels on syringes, vials, and packaging to convey essential warnings and drug-specific details.

Positive Impressions maintains a catalog exceeding 3,000 items focused on veterinary supplies. The addition of these labeling products aligns with the company's ongoing efforts to address practical needs in prescription management and client communication.

Sherri Torkelson, Co-Owner of Positive Impressions, stated, "These pre-printed sheet labels provide veterinary practices with reliable tools to maintain accuracy and safety when handling medications."

She continued, "By offering options compatible with leading software systems, Positive Impressions supports efficient workflow in modern veterinary pharmacies."

Beyond labels, the company's offerings include memorial and sympathy products like plantable seed inserts and customizable sympathy cards, as well as paw print keepsake kits, reflecting a comprehensive approach to supporting veterinary client relationships during various stages of pet care.

Positive Impressions LLC operates as a dedicated supplier of veterinary supplies and promotional products. The company provides a wide array of items to assist practices in client engagement, event promotions, and operational efficiency, with a selection that encompasses prescription accessories, branded materials, and supportive client resources.
