

Amana Care Clinic Expands Urgent Care Services Across Davenport and Muscatine Communities

April 01, 2026

DAVENPORT, Iowa - April 01, 2026 -
Amana Care Clinic has expanded its walk-in medical services to better serve residents across the Quad Cities region, with locations now operating in Davenport and Muscatine, Iowa. The urgent care clinic continues to address growing demand for accessible, non-emergency medical treatment without the need for appointments.

The expansion reflects increasing community need for immediate medical attention outside traditional office hours and without the extended wait times often associated with hospital emergency departments. Both clinic locations offer comprehensive diagnostic capabilities including on-site X-ray services and full laboratory testing, enabling certified medical professionals to diagnose and treat a wide range of conditions efficiently.

The clinic treats numerous conditions ranging from minor injuries and infections to seasonal illnesses and sports physicals. Common presentations include fractures, lacerations requiring sutures, respiratory infections, urinary tract infections, and musculoskeletal injuries. The medical staff also provides routine

services such as sports physicals required for student athletes and treatment for workplace injuries.

Walk-in availability remains a cornerstone of the clinic's service model, though patients can also utilize online check-in systems to reduce waiting times. This flexibility proves particularly valuable during peak illness seasons when prompt treatment can prevent complications and reduce transmission of communicable diseases.

"The demand for accessible health care continues to grow as more patients seek alternatives to emergency room visits for non-life-threatening conditions," said Moutaz Kotob, PhD, Medical Director at Amana Care Clinic. "Our expansion allows us to serve more communities with the same commitment to timely, professional medical care that patients have come to expect from our facilities."

The Davenport location serves as a primary access point for residents throughout the Quad Cities area, including neighboring Bettendorf. The addition of the Muscatine facility extends convenient medical access to southeastern Iowa communities that previously had limited urgent care options.

Staffed by certified healthcare professionals experienced in urgent care medicine, both locations maintain extended hours to accommodate patients who cannot visit during traditional business hours. The clinics' diagnostic equipment, including digital X-ray technology and comprehensive laboratory services, enables same-visit diagnosis and treatment for most conditions.

The expansion comes as healthcare systems nationwide adapt to changing patient preferences for convenient, cost-effective medical services. Walk-in clinics have emerged as vital components of community healthcare infrastructure, bridging the gap between primary care physicians and emergency departments.

Amana Care Clinic operates as a full-service urgent care provider offering treatment for acute illnesses, minor injuries, and routine medical needs. The clinic's medical professionals specialize in rapid assessment and treatment of non-emergency conditions, utilizing advanced diagnostic tools to deliver comprehensive care. With locations in Davenport and Muscatine, Iowa, the organization serves diverse communities throughout the eastern Iowa region, providing accessible medical services without appointment requirements.
