April 06, 2026

LAS VEGAS, NV - April 06, 2026 -
Las Vegas Homes By Leslie - RE/MAX United Realtor announced today the launch of an enhanced digital platform providing detailed property information and market data for Trilogy at Summerlin, a 55+ residential community featuring maintenance-free condos and townhomes in the Las Vegas Valley.

The updated online platform at https://www.lasvegashomesbyleslie.com/trilogy-homes-for-sale.php now includes expanded property specifications, virtual tour capabilities, and comprehensive neighborhood data for the Trilogy community. The digital enhancement comes as demand for 55+ housing in the Las Vegas market continues to grow, with recent market statistics showing increased interest in maintenance-free living options among active adults.

"The expansion of our digital resources reflects the evolving needs of today's real estate market, where buyers expect comprehensive property information available online before scheduling viewings," said Leslie Hoke, Principal Realtor at Las Vegas Homes By Leslie - RE/MAX United Realtor. "This platform upgrade allows potential buyers to access detailed specifications, floor plans, and community information for properties ranging from $600,000 to over $1,000,000."

The enhanced platform provides specific property data including square footage measurements, bedroom and bathroom counts, lot dimensions, and HOA fee structures for each available unit. The digital resource also incorporates neighborhood statistics, proximity to medical facilities, shopping centers, and recreational amenities throughout the Summerlin area.

Trilogy Condos For Sale in Summerlin From Las Vegas Homes By Leslie - RE/MAX United Realtor encompass three distinct collections developed by Shea Homes - The Resort Collection, The Modern

Collection, and The Luxe Collection. The community features thirteen different floor plan models designed for the 55+ active adult market, with square footage, bedroom configurations, and lot sizes varying across the collections.

According to recent Las Vegas Valley housing market data, the 55+ housing segment has experienced steady growth, with maintenance-free properties showing particular strength in buyer interest. The Trilogy community includes amenities such as a culinary studio, dog park, Zen garden, and fitness facilities, addressing the lifestyle preferences identified in recent active adult housing surveys.

"Market data shows that buyers spend an average of 10 hours researching properties online before contacting a realtor," added Hoke. "By providing comprehensive property details, floor plans, and community information upfront, we're aligning our services with current buyer behavior patterns in the Las Vegas real estate market."

The platform enhancement includes integration of monthly market statistics and price trend data for the Las Vegas residential market, enabling users to view properties within the context of broader market conditions. This data integration provides transparency regarding pricing trends, inventory levels, and average days on market for comparable properties in the Summerlin area.
