

Popular Phoenix Coffee Grinder Soon To Be Back In Stock

April 12, 2016

April 12, 2016 - PRESSADVANTAGE -

Cape Coral, FL business Phoenix Treasures LLC, which is known for their coffee related products, including their French press and coffee grinder, has announced that the coffee grinder is currently out of stock but will be back soon. The Phoenix coffee grinder had turned out to be so popular that it sold out very rapidly. The company has revealed that they are replenishing their stock and that it will once again be available within a week. More details are available on the company website on www.phoenixtreasuresllc.com.

Robert King from Phoenix Treasures LLC says: "For us, it is all about coffee. We want to make sure people can get true enjoyment out of this ancient drink, regardless of how people like to brew it and how they like to drink it. Our coffee grinder turned out to even more popular than we had anticipated and it flew off the shelves. We have replenished our stock and it will soon be available again. We're making sure we have a huge stock so that customers will no longer have to wait for their product."

The coffee grinder is a powerful device with a strong motor that won't get bogged down. Because it has an oval design, grinding is always uniform. It comes with a large stainless steel bowl that is able to hold enough whole beans for eight cups, or three to four mugs of coffee. The lid is clear, meanwhile, which enables people

to see the grind they are getting, so that they can choose the coarseness they prefer.

Phoenix Treasures is committed to making products that create the best cup of coffee in an easy and safe way. They are equally committed, however, to creating products that look good. People who have tried the grinder have been overwhelmingly positive. "I'm so happy that I found this product," says Bryan on the company website. "I'm 43 years old and was looking for a good quality coffee bean, spice and herb grinder a long time. This one is a keeper for sure! I put in my first scoops of coffee beans and knew right away that this was a good one. The quality is there and the price is right as well. All that is left to do is enjoy the coffee I just ground up. Thanks guys, great product."
