

Dixie Glass Gulf Coast Announces Enhanced Service Capacity to Meet Growing Demand in Pascagoula Market

April 06, 2026

PASCAGOULA, MS - April 06, 2026 -
Dixie Glass Gulf Coast - Pascagoula has announced enhanced service capacity to address increasing demand for professional glass repair and installation services across the Mississippi Gulf Coast region. The family-owned company, which has served the area since 1946, reports significant growth in requests for both residential and commercial glass services throughout 2024.

The expansion of service capacity comes as local construction and renovation projects continue to rise across Pascagoula and surrounding communities. The company has strengthened its ability to handle everything from auto glass replacement and residential shower enclosures to large-scale commercial installations, ensuring faster response times for customers throughout the region.

"The demand for reliable, professional glass services has grown substantially as our community continues to develop and modernize," said Sean Westmoreland of Dixie Glass. "By expanding our service capacity, we

can better serve both our long-standing customers and new clients who need everything from emergency auto glass repairs to custom commercial installations."

The company's comprehensive service portfolio addresses diverse glass needs across multiple sectors. Auto glass services include windshield replacement, chip repairs, and advanced driver assistance systems (ADAS) recalibration, ensuring vehicle safety systems function correctly after glass replacement. The company also provides direct insurance billing to streamline the repair process for customers.

Residential services encompass custom frameless shower enclosures, mirror installations, and window glass replacement. The company's in-house fabrication capabilities enable faster project completion while maintaining quality control throughout the process. Commercial clients benefit from professional installation of storefront windows, curtain wall systems, and comprehensive door repair services.

Recent industry recognition underscores the company's growth trajectory and service excellence. The organization was named to the Inc. 5000 list of Fastest Growing Small Businesses in both 2020 and 2023, received the Glazier Nation Glass Company of the Year award for 2024, and earned the 2025 WXXV Viewers Choice Award. These accolades reflect the company's commitment to maintaining high standards across all service categories.

The enhanced service capacity includes expanded capabilities for custom glass fabrication, allowing for unique architectural and decorative applications. Walk-in customers can access custom glass cutting, plexiglass, and mirror services at company locations, while larger projects benefit from the organization's bid and contract expertise.

Safety and certification remain central to operations. The company maintains licensing through the Mississippi State Board as a certified contractor, and technicians hold Auto Glass Safety Council (AGSC) certifications. These credentials ensure compliance with industry standards and best practices for all installations and repairs.

Dixie Glass serves communities from Gulfport and Biloxi to Pascagoula and beyond, providing comprehensive glass solutions for automotive, residential, and commercial applications. The company's nearly 80-year presence in the Mississippi Gulf Coast region has established it as a trusted provider for both routine maintenance and complex custom projects.
