

## **Garden Product Store Growing Quickly As It Launches Garden Tool Set**

*April 13, 2016*

April 13, 2016 - PRESSADVANTAGE -

OutdoorWind, a business in Chattanooga, TN, is a company that is quickly becoming the go to source for gardening products, as it introduces a garden tool set. Their best selling product last year was their wind chimes. This year, they have released the Complete Garden Tool Set (10 pieces). This tool set is already proving to be incredibly popular.

Harold from OutdoorWind says: "Our company has grown tremendously over the past year, and it is really good to see how many people are trusting us for their gardening needs. Our wind chimes are now gracing many people's gardens, and we're really happy that we can now also impact the ease with which people are able to maintain their outdoor space."

The new garden tool set is available through the company's website, and also on Amazon, which offers customers a secure purchasing environment. The set comes with pruning shears, a trowel, a transplanter, a planter, garden wire, garden gloves, and more. The gardening tools are all made from a sturdy stainless steel, which guarantees its quality and durability. The tools are presented in a convenient storage bag, to keep everything in place.

The wind chimes were a true best selling item, receiving countless positive reviews on Amazon. Customers have commented on the unique sound that the chimes make, and many have come back and purchased more chimes for other areas of their garden, or as gifts for friends and family members. People have also commented on the excellent quality of the materials used in the wind chimes.

OutdoorWind Products has a number of other products available on their website. Many of these are related to improving the look of a garden through decoration items, but they also sell a number of products used in gardening itself. "We are always on the lookout for new products that can help people create the garden of their dreams," adds Harold. "Working and spending time in the garden is good for the mind, body, and soul and we want to encourage as many people as possible to get out in their gardens."

People are encouraged to visit the company's website or their Amazon store for further information.
