

Kings Carpets & Flooring Expands Local Carpet Fitting Service Across Great Dunmow

September 21, 2026

Bishops Stortford, Essex - September 21, 2026 -

Kings Carpets Ltd has confirmed the expansion of its carpet supply and installation service throughout the Great Dunmow area, giving residential and commercial customers access to a full range of flooring options delivered through a mobile showroom model.

The company reports that demand for local carpet fitting has grown steadily across Essex, prompting a wider focus on the towns and villages surrounding Great Dunmow. Through Kings Carpets & Flooring - Carpet Great Dunmow, the business now covers consultation, measurement, subfloor preparation, installation, and finishing work as part of a single service.

A central feature of the expanded offering is the mobile showroom, which brings flooring samples directly to a customer's home. This approach allows people to view carpet, engineered wood, laminate, and luxury vinyl tile options in the light and setting of the rooms where the flooring will be installed. The company states that the model removes the need to travel to a fixed showroom and helps customers match materials to existing furnishings.

Ian King, Director of Kings Carpets Ltd, said the decision to strengthen coverage in the region reflected feedback from local households and businesses. "Great Dunmow and the surrounding villages have a strong community of homeowners and business owners who want a straightforward, local service," King said. "By bringing samples into the home and handling the entire process from measurement through to finishing, the aim is to make choosing and fitting flooring a clear and manageable task."

Alongside carpet supply and installation, the company provides carpet cleaning, carpet repair, and ongoing maintenance intended to extend the life of the flooring. Commercial clients are offered tailored solutions designed to suit higher-traffic environments and specific operational requirements.

The company also confirmed that finance options remain available through Snap Finance, allowing customers to spread the cost of a flooring project over time. King noted that access to flexible payment arrangements was a factor in supporting the wider service area. "Flooring is a considered purchase for most households, so providing practical options around consultation, materials, and payment matters," he said.

Kings Carpets & Flooring works with a range of established flooring brands and places emphasis on local knowledge, accurate measurement, and attention to detail during installation. The company serves several regions in addition to Essex, including Greater London, Kent, and Surrey, with the Great Dunmow expansion forming part of a broader focus on communities within its established coverage area.

Kings Carpets Ltd is a UK-based flooring specialist providing supply, installation, cleaning, and maintenance services for residential and commercial properties. The company offers engineered wood, laminate flooring, luxury vinyl tiles, and carpets, and operates a mobile showroom that brings samples to customers at home. Based in Hatfield Broad Oak near Bishops Stortford, the company delivers flooring solutions across Essex and neighbouring counties.
