

Davis & Son Announces Expanded Air Conditioning Services for Aurora Missouri Residents

April 17, 2026

MONETT, MO - April 17, 2026 -
Davis & Son, a leading HVAC contractor serving Southwest Missouri for over four decades, announces the expansion of comprehensive air conditioning services to Aurora, Missouri and surrounding communities. The company brings its extensive expertise in residential, commercial, and industrial cooling solutions to meet growing demand for reliable AC services in the region.

The expansion includes full-service air conditioning repair, installation, maintenance, and indoor air quality solutions for Aurora residents and businesses. Davis and sons Air Conditioning Contractor specializes in central air systems, ductless mini-splits, heat pumps, and smart thermostat installations, addressing the diverse cooling needs of properties throughout the area.

"Aurora residents deserve access to dependable, professional HVAC services that keep their homes and businesses comfortable year-round," said Kristen, spokesperson for Davis & Son. "Our expansion into this community reflects our commitment to bringing four decades of expertise and proven solutions to more

families and businesses across Southwest Missouri."

The company's service offerings encompass emergency repairs, routine maintenance, and complete system replacements. Technicians handle common issues including refrigerant recharges, compressor repairs, condenser coil cleaning, and thermostat calibration. Davis and sons AC inspection services include comprehensive system evaluations, performance testing, and preventive maintenance programs designed to extend equipment life and improve energy efficiency.

Beyond standard cooling services, Davis & Son provides advanced indoor air quality solutions including air purification systems, UV light installations, dehumidifiers, and professional duct cleaning. These services address growing concerns about indoor air quality and help create healthier environments for homes and businesses.

The company emphasizes the importance of annual AC maintenance to prevent unexpected breakdowns and maintain optimal system performance. Their technicians receive ongoing training in the latest HVAC technologies and repair techniques, ensuring they can service all major brands and system types.

"We understand that AC problems don't follow a convenient schedule, which is why we maintain rapid response capabilities for emergency repairs," added Kristen. "Our goal is to provide lasting solutions that give our customers peace of mind and reliable comfort throughout the cooling season."

Davis & Son serves multiple counties across Southwest Missouri, including Barry, Lawrence, Christian, Greene, Jasper, Newton, McDonald, and Stone counties. The company's expansion into Aurora strengthens its regional presence and demonstrates its ongoing commitment to meeting the HVAC needs of growing communities.

Established over 40 years ago, Davis & Son has built its reputation on integrity, innovation, and customer satisfaction. The company provides comprehensive HVAC and plumbing services for residential, commercial, and industrial clients throughout Southwest Missouri. Known for quick response times and efficient service delivery, Davis & Son combines traditional craftsmanship with modern technology to deliver reliable heating, cooling, and plumbing solutions. The company maintains an active presence in the communities it serves and continues to invest in new technologies and training to maintain its position as a regional leader in the HVAC industry.
