# Skin Artistry Clinic Alamo Expands Botox Services to Meet Growing Demands in Contra Costa County

*April 16, 2026*

Alamo, California - April 16, 2026 -
Skin Artistry Clinic, a medical spa serving the San Francisco Bay Area, has expanded its aesthetic treatment offerings to accommodate increasing patient demand for non-surgical facial rejuvenation procedures. The clinic, led by board-certified physician Dr. Faiqa Chaudhry, now provides enhanced scheduling availability and comprehensive consultation services for patients seeking FDA-approved injectable treatments.

The expansion comes as medical spas across California report significant growth in patient interest for minimally invasive aesthetic procedures. Industry data indicates that non-surgical facial treatments have increased by over 40 percent nationally in the past five years, with injectable treatments leading this trend.

"We have seen remarkable growth in patients seeking safe, effective alternatives to surgical procedures," said Dr. Faiqa Chaudhry, Medical Director at Skin Artistry Clinic. "Our expanded services allow us to provide more comprehensive consultations and personalized treatment plans that address each patient's unique aesthetic goals while maintaining the highest standards of medical care."

The clinic specializes in Botox treatment Alamo residents have come to rely on for addressing various

cosmetic concerns, including forehead lines, crow's feet, and frown lines. The practice also offers Dysport injections, dermal fillers, IPL photofacial treatments, and laser hair removal services. Each treatment is administered by trained medical professionals under Dr. Chaudhry's supervision.

Beyond traditional aesthetic services, the clinic has integrated longevity medicine principles into its practice, combining aesthetic treatments with preventive health approaches. This includes biomarker assessments, nutritional counseling, and hormone therapy options designed to support overall wellness alongside cosmetic improvements.

The facility utilizes advanced technology, including Lumenis IPL systems for skin rejuvenation and state-of-the-art laser equipment for hair removal procedures suitable for various skin tones and hair types. The clinic's commitment to using FDA-approved products and proven technologies has established it as what many patients consider the best medspa in Contra Costa County.

"Patient safety and satisfaction remain our primary focus," noted Dr. Chaudhry. "By expanding our service availability and maintaining our commitment to personalized care, we can better serve the growing number of patients seeking professional aesthetic treatments in a medical setting."

The clinic serves patients from Alamo, Danville, Walnut Creek, and surrounding communities throughout the East Bay region. Treatment consultations typically include a comprehensive skin assessment, discussion of treatment options, and development of a customized treatment plan based on individual needs and aesthetic goals.

Skin Artistry Clinic is a medical spa located in Alamo, California, specializing in aesthetic medicine and wellness treatments. Founded and led by Dr. Faiqa Chaudhry, a board-certified physician with over a decade of experience in primary care, preventive medicine, and aesthetic medicine, the clinic offers a comprehensive range of non-surgical cosmetic procedures and longevity medicine services. The practice focuses on providing evidence-based treatments in a professional medical environment, serving patients throughout the San Francisco Bay Area.
