

Sasso Guerrero & Henderlite Highlights Common Divorce Mistakes That Can Impact SGH Clients

April 24, 2026

JACKSONVILLE, FL - April 24, 2026 -
Sasso Guerrero & Henderlite, a Jacksonville-based family law firm, has expanded its educational resources to address common mistakes individuals make during divorce proceedings in Florida. The firm's latest guidance materials build upon previous resources about equitable distribution to help residents understand practical pitfalls that can affect divorce outcomes.

The expanded resources focus on frequent missteps that occur during divorce proceedings, including inadequate financial documentation, lack of preparation for court proceedings, and failure to consider long-term implications of settlement decisions. These materials complement the firm's earlier guidance on property division by addressing the practical aspects of navigating the divorce process.

"Many individuals entering divorce proceedings underestimate the importance of comprehensive financial documentation," said Jay Henderlite, Board Certified Marital & Family Law Expert and managing partner at Sasso Guerrero & Henderlite. "Incomplete records of assets, debts, and income can significantly

impact equitable distribution determinations and ultimately affect the final settlement."

The firm's educational materials identify several critical areas where mistakes commonly occur. Financial oversights represent one of the most significant challenges, as Florida's equitable distribution system requires detailed evaluation of marital and non-marital assets. The resources explain how inadequate documentation can lead to unfavorable property division outcomes or prolonged legal proceedings.

Communication issues during divorce proceedings also feature prominently in the firm's guidance. The materials address how miscommunication between parties or with legal representatives can complicate negotiations and potentially result in misunderstandings about settlement terms. The resources emphasize the importance of clear, documented communication throughout the process.

Another key focus area involves the long-term implications of divorce decisions. The firm's materials explain how choices made during proceedings can affect financial stability, parenting arrangements, and other aspects of post-divorce life. Topics covered include retirement account division, debt allocation, and the tax implications of various settlement structures.

The educational resources also address preparation strategies for divorce proceedings. This includes gathering necessary documentation, understanding Florida's divorce laws, and setting realistic expectations for the process timeline. The materials explain how proper preparation can help individuals avoid common procedural mistakes that might delay proceedings or affect outcomes.

"Understanding the divorce process helps individuals make informed decisions during what is often an emotionally challenging time," added Henderlite. "Our goal is to provide educational resources that help people recognize potential pitfalls before they become costly mistakes."

Sasso Guerrero & Henderlite serves Clay County, Duval County, Nassau County, and St. Johns County with comprehensive family law services. The firm stands as the only practice in Northeast Florida with three Board Certified Marital & Family Law Experts serving as managing partners. The firm's practice areas include divorce, child custody, alimony, property division, and other family law matters, along with criminal law services including domestic violence defense and DUI representation.
