Control Point Heating ? Cooling ? Plumbing ? Electric Marks 19 Years of Service

April 16, 2026

SHREWSBURY, MA - April 16, 2026 -
Control Point Heating ? Cooling ? Plumbing ? Electric marks 19 years of operation as a provider of heating, cooling, plumbing, and electrical services. The family-owned company, founded in 2007 by Nick Lupo, has developed its capabilities while maintaining standards of workmanship and customer focus in the local market.

Nick Lupo established the business with an emphasis on teamwork and reliable solutions for residential and commercial properties. Over the following years, Control Point Heating ? Cooling ? Plumbing ? Electric has addressed a range of system needs through installations, repairs, and maintenance. Its technicians bring more than 286 years of combined industry experience to each project.

The company offers services for heating and cooling equipment such as gas furnaces, heat pumps, boilers, ductless systems, geothermal heat pumps, air handlers, and zone control systems. Sheet metal fabrication supports custom ductwork requirements. Plumbing services include water heater work, pipe repairs, sewer line services, and water filtration systems. Electrical services cover panel upgrades, wiring installations, repairs, and safety inspections. Additional capabilities encompass duct cleaning and indoor air quality

improvements.

In January 2023, Danielle Boland joined as co-owner and Director of Strategy and Business Operations. Her background in business leadership and customer experience has contributed to operational development. The company holds full licensing and insurance, along with EPA certification for handling refrigerants and related environmental considerations.

Throughout its 19 years, Control Point Heating ? Cooling ? Plumbing ? Electric has supported local households and businesses by helping maintain functional heating, cooling, plumbing, and electrical systems. This presence has contributed to the reliable operation of essential infrastructure across the served communities in Central Massachusetts. The company has also recognized its veteran team members through dedicated observances that honor their service.

Danielle Boland, Co-Owner and Director of Strategy and Business Operations, said, "Nineteen years reflect the steady contributions of the team and the relationships built within the community over time."

Nick Lupo, Co-Owner, noted, "The foundation established in 2007 has guided the company through consistent service delivery and adaptation to changing needs in the market."

The firm follows core operating principles that include accountability, initiative, a solution-oriented approach, customer focus, and attention to employee wellness. These elements shape daily practices and project execution. Regular training keeps staff current with industry developments and technical requirements.

The VIP Club membership program provides scheduled maintenance visits for participating homeowners. These appointments involve system testing, inspection, monitoring, cleaning, and adjustments aimed at supporting safety and efficiency. Commercial clients receive comparable attention across heating, cooling, plumbing, and electrical projects of varying scale.

Control Point Heating ? Cooling ? Plumbing ? Electric has adapted to advancements in system technologies during its history. The company integrates components such as controls and filtration options to align with different property requirements. Its integrated service model enables addressing of interconnected systems within individual projects.

Reaching this milestone provides an opportunity to recognize the accumulated expertise of the team and the sustained presence in the local market. The business has maintained operations through varying seasonal and economic conditions while upholding professional standards. The company continues to evolve its practices in response to developments in the field.

Control Point Heating ? Cooling ? Plumbing ? Electric is a family-owned business founded in 2007 specializing in HVAC, plumbing, and electrical services. With extensive team experience, the company delivers comprehensive solutions for residential and commercial properties.
