Love Motorsports of Ocoee Expands Used Side by Side Dealership Inventory to Meet Growing Regional Demand

May 04, 2026

OCOEE, FL - May 04, 2026 -
Love Motorsports of Ocoee has expanded its recreational vehicle inventory to address increased demand for utility vehicles and golf carts throughout Central Florida, according to company leadership. The dealership, which specializes in motorsports and power equipment, has broadened its selection of pre-owned side-by-sides and electric golf carts to serve both recreational users and commercial customers.

The expansion comes as Central Florida experiences sustained growth in demand for alternative transportation and recreational vehicles. As a used side by side dealer Florida residents have relied on for years, Love Motorsports has responded by increasing its inventory of utility terrain vehicles from manufacturers including Polaris, CFMOTO, and Kandi. The dealership now maintains one of the region's most comprehensive selections of pre-owned motorsports equipment.

"We've seen remarkable growth in customer interest for utility vehicles that serve multiple purposes, from recreational trail riding to practical transportation around larger properties," said Chad Halleen, Owner of Love Motorsports of Ocoee. "Our expanded inventory reflects the diverse needs of Central Florida residents,

whether they're looking for rugged side-by-sides for outdoor adventures or electric golf carts for neighborhood transportation."

The dealership's enhanced inventory includes electric golf carts ranging from two-passenger models to six-person vehicles suitable for larger families or commercial applications. With golf carts for sale in Orlando becoming increasingly popular for short-distance transportation in residential communities and business complexes, Love Motorsports has positioned itself to meet this growing market segment. The company's current inventory features 2023 and 2024 models from Kandi, including the Kruiser 6P six-person electric cart and the K2 Hunting Package.

Beyond recreational vehicles, Love Motorsports maintains a comprehensive selection of ATVs, motorcycles, tractors, heavy equipment, power equipment, and trailers. The dealership's service department, staffed by certified technicians, provides maintenance and repair services for all types of motorsports and power equipment, ensuring customers can keep their vehicles operating at peak performance.

The company has also enhanced its customer service capabilities, offering financing options, trade-in valuations, and customization services. These expanded services allow customers to tailor their purchases to specific needs while taking advantage of flexible payment options.

"Our goal has always been to provide Central Florida with quality motorsports equipment backed by professional service," added Halleen. "This inventory expansion represents our commitment to meeting evolving customer needs while maintaining the high standards of service our customers expect."

Love Motorsports of Ocoee serves the greater Orlando area from its location in Ocoee, Florida. The dealership offers new and used motorsports equipment, including Polaris side-by-sides, RZRs, CFMOTO ATVs, and Argo vehicles. In addition to vehicle sales, the company provides professional maintenance services, genuine replacement parts, and customization options for motorsports and power equipment. The dealership has established itself as a comprehensive resource for both recreational and commercial customers seeking reliable outdoor equipment solutions.
