

Love Power Equipment and Rentals Expands Inventory to Meet Growing Demand from Tractor Dealers and Agricultural Customers

May 20, 2026

CHIEFLAND, FL - May 20, 2026 - PRESSADVANTAGE -

Love Power Equipment and Rentals, a power equipment dealership based in Chiefland, Florida, has expanded its inventory of agricultural and commercial equipment to address increasing demand from contractors, farmers, and outdoor professionals throughout the region. The expansion includes a broader selection of tractors, construction equipment, and utility vehicles to serve customers from Chiefland to Jacksonville.

The dealership has strengthened its position among tractor dealers in Florida by increasing its stock of both new and pre-owned agricultural equipment. The expanded inventory includes Bad Boy Tractors, New Holland Agriculture equipment, and a comprehensive selection of commercial-grade machinery designed for professional applications.

"The demand for reliable power equipment has grown significantly across North Florida," said Chad Halleen, owner of Love Power Equipment and Rentals. "By expanding our inventory and service capabilities, we can better serve agricultural operations, construction companies, and property maintenance professionals who

depend on quality equipment to run their businesses."

The expansion addresses specific market needs identified through customer feedback and regional demand patterns. Love Power Equipment and Rentals now maintains an extensive selection of used Polaris Side by sides in Jacksonville, providing cost-effective options for customers seeking utility vehicles for work and recreational applications. The dealership carries Polaris RZR and Ranger models, including youth-sized options for family operations.

Beyond sales, the company provides comprehensive support services including equipment rentals, parts distribution, and professional maintenance. The rental division offers commercial power equipment and heavy machinery for short-term and long-term projects, serving construction sites, agricultural operations, and special events throughout the region.

The parts and service departments have also expanded to support the growing inventory. Factory-trained technicians provide maintenance and repair services for all brands carried by the dealership, including Bad Boy Mowers, LiuGong construction equipment, and Suzuki vehicles. The parts department maintains an extensive inventory of replacement components and accessories.

"Our goal is to be a complete resource for power equipment needs," stated Halleen. "Whether a customer needs to purchase, rent, or service equipment, we provide the expertise and inventory to keep their operations running efficiently."

Financing options remain a key component of the dealership's services. Love Power Equipment and Rentals offers flexible payment plans and pre-qualification services to help customers acquire the equipment they need while managing cash flow effectively.

The dealership serves customers throughout North Florida from its Chiefland location, providing access to leading equipment brands and professional support services. The expanded inventory particularly benefits agricultural operations seeking tractors and implements, construction companies requiring skid steers and compact equipment, and property maintenance professionals looking for commercial mowers and utility vehicles.

Love Power Equipment and Rentals specializes in power equipment sales, rentals, and service for agricultural, construction, and property maintenance applications. The dealership carries multiple equipment lines including Bad Boy, New Holland Agriculture, LiuGong, and Polaris, serving commercial and residential customers throughout North Florida.
