

SJSEO Launches New Website for Hawks & Company

April 15, 2016

April 15, 2016 - PRESSADVANTAGE -

South Jersey SEO by CyberGnarus (SJSEO), a business in Haddonfield, NJ, is proud to announce that they have partnered with Hawks & Company to create a state of the art, responsive, new website for the Hawks. The site is designed to enable the company to proudly present information about what they do best. The SEO company, whose website is <http://www.southjerseyseo.org>, is very proud of the resulting site.

Carol Harkins at SJSEO said: "It is our goal to provide clients with an Internet presence that is going to make a difference in their bottom line. We believe that the website we created for Hawks is positioned to do just that."

The new website has enabled Hawks & Company to enter the 21st century. Their former site had been created using technology from 10 years ago, and it no longer filled their need. With most of the world's commerce now running through online efforts, it was important that they became up-to-date. The company entrusted South Jersey SEO by CyberGnarus with that task.

Now the company will be able to more effectively communicate with their customers and prospective customers. The new site will allow them to display the work that they have done using current-day technology like video, in addition to images and words. This gives them the ability to show to their market the differences

that they bring to the table.

Steven Day, Sales and Marketing Coordinator for Hawks & Company, said: "Working with Carol and SJSEO by CyberGnarus has been great. She has helped Hawks & Company not only from a technical aspect, but also aided with making sure that the design of our new site works. She is always available to give advice and ever conscious that what we are doing works both from an SEO and company vision standpoint."

People are encouraged to learn more about the work that South Jersey SEO by CyberGnarus can accomplish, as well as their company philosophy regarding ethics, through the company's website. They have represented a number of prominent businesses and helped them to develop a better bottom line through increased visibility.
