

Three T?s Plumbing, Heating & Cooling Highlights History as HVAC & Plumbing Company Serving Saginaw County, MI & Greater Mid-Michigan

April 22, 2026

VASSAR, MI - April 22, 2026 -

Three T?s Plumbing, Heating & Cooling has provided plumbing, heating and cooling services throughout Mid-Michigan since 2004. The company operates as a HVAC & plumbing company serving Saginaw County, MI and greater Mid-Michigan, delivering solutions for both residential and commercial clients in the region.

Founded by Todd Noblin, Three T?s Plumbing, Heating & Cooling, Inc. was established with more than 25 years of combined experience in the industry. The couple brought a solid work ethic and dedication to customer satisfaction to their new venture, which has since built a loyal customer base and gained recognition within the industry for its approach to projects.

Prior to founding the company, Todd Noblin gained significant experience supervising and completing projects for larger companies. His portfolio included work on a Fuddruckers restaurant, an 80,000 square foot

church, medical office buildings, outpatient medical facilities, apartment buildings, a Walmart addition that included a fire sprinkler system, and various other commercial jobs. This background has informed the company's capabilities in handling complex installations and repairs.

Since its inception, Three T?s Plumbing, Heating & Cooling has focused on full-service heating, cooling, and plumbing work. The company handles new construction as well as service and repair work. On average over the past 10 years, the business has completed approximately 50 new homes each year. In addition, it has worked on multi-home rental units, two outpatient medical sites for Sparrow Hospital, a doctor?s office, a medical building for several doctors, repairs in restaurants, and a number of apartment complexes.

The company serves the areas of Saginaw, Frankenmuth, Davison, Vassar, and the broader Great Lakes Bay Region. As a local provider, it understands the specific needs of properties in these Michigan communities.

Todd Noblin, founder of Three T?s Plumbing, Heating & Cooling, said, "When we started the company in 2004, we wanted to create a business that emphasized quality, timeliness, and direct communication with customers. Our experience helped us establish strong foundations for the types of projects we take on."

Noblin added, "We remain involved in the jobs to ensure that every project meets our standards for competence and customer care. This approach has helped us build long-term relationships in the community."

Three T?s Plumbing, Heating & Cooling offers a range of plumbing services that include fixture installation and upgrades, repairs for common issues, water heater services for both tank and tankless models, sump pump work, garbage disposal services, emergency response, drain cleaning, pipe services, gas line work, and commercial plumbing systems. The heating and cooling services encompass furnace installation, repair and maintenance, air conditioner installation, repair and maintenance, and commercial HVAC systems. Additional capabilities include solutions for indoor air quality and maintenance plans.

The business has grown by maintaining a commitment to being competitive, competent, and timely in its operations. Strong communication and owner involvement are key aspects of how the company approaches each job, whether it is a new construction project or a repair call.

Over the years, Three T?s Plumbing, Heating & Cooling has contributed to the development of the region through its work on both residential and commercial properties. The new homes constructed with their systems, the medical facilities supported, and the commercial spaces maintained reflect the scope of their involvement in the local economy and infrastructure.

The company prides itself on its ability to handle projects of varying scales. From single-family residences to larger commercial sites, the team applies the same principles of workmanship that were present from the beginning.

As the business enters its third decade, it continues to serve the needs of homeowners and businesses in the area with the same dedication that marked its early days. The foundation laid in 2004 by the Noblin family has allowed Three T?s Plumbing, Heating & Cooling to establish itself as a consistent provider of essential services.

Three T?s Plumbing, Heating & Cooling is a full-service plumbing, heating and cooling contractor based in Michigan that serves residential and commercial customers with installation, repair and maintenance services.
