

Rigert Treppenlifte AG Expands Vertical Lift Solutions for Customers with Limited Mobility Across Switzerland

May 22, 2026

Küssnacht am Rigi, SZ - May 22, 2026 -
Rigert Treppenlifte AG, a leading Swiss mobility solutions provider with over 60 years of experience, announces expanded availability of its comprehensive range of stairlifts, platform lifts, and vertical mobility solutions to serve the growing needs of seniors and individuals with limited mobility throughout German, French, and Italian-speaking regions of Switzerland.

The expansion comes as Switzerland's aging population increasingly seeks reliable mobility solutions to maintain independence in their homes. With branches strategically positioned across all three major language regions, Rigert Treppenlifte AG now offers enhanced local support and faster installation times for customers requiring accessibility modifications.

As Switzerland's population ages, Rigert Treppenlifte AG has seen unprecedented demand for quality mobility solutions that allow people to remain safely in their homes. They emphasize that their expanded regional presence gives them the ability to provide faster consultations, installations, and ongoing support to

customers regardless of their location or language preference. More information on the company can be found at https://pressadvantage.com/organization/rigert-treppenlifte-ag.

The company's comprehensive product line includes custom stairlifts for both straight and curved staircases, platform lifts designed specifically for wheelchair users, and portable stair crawlers for temporary mobility needs. Each solution undergoes rigorous Swiss quality testing and meets all national safety standards for residential and commercial installations.

Rigert Treppenlifte AG has established partnerships with healthcare facilities and senior living communities across Switzerland to ensure residents have access to appropriate mobility solutions. These collaborations have resulted in successful installations in numerous multi-story facilities, enabling greater independence for residents with varying mobility challenges.

The company's technical expertise extends beyond simple installations. Their team of certified technicians provides comprehensive project planning services, ensuring each lift system integrates seamlessly with existing architecture while meeting individual mobility requirements. This attention to detail has earned the company a 4.7 rating based on customer reviews, with clients particularly praising the thorough consultation process and professional installation services. Interested parties can find out more at https://rigert-treppenlifte-kuesnacht.localo.site.

As part of the Garaventa Group, Rigert Treppenlifte AG benefits from decades of engineering innovation in vertical transportation systems. This relationship provides access to cutting-edge technology and design improvements that enhance both safety and user experience. Recent product updates include improved battery backup systems, smoother operation mechanisms, and enhanced weight capacities to accommodate a broader range of mobility devices.

The company maintains Switzerland's largest customer service network dedicated to mobility solutions, offering regular maintenance programs and rapid response times for service calls. This comprehensive support infrastructure ensures that installed systems continue operating safely and efficiently throughout their operational lifetime.

Rigert Treppenlifte AG specializes in providing stairlifts, wheelchair lifts, and platform lifts throughout Switzerland. Since 1962, the company has installed thousands of mobility solutions in private homes and public facilities, helping individuals with limited mobility navigate stairs and height differences safely. As part of the Garaventa Group, the company combines Swiss engineering excellence with personalized local service across all regions of Switzerland.
