

JJRM Flooring Ltd Expands Flooring Services Across Eltham and Bickley

September 24, 2026

LONDON, UK - September 24, 2026 -

JJRM Flooring Ltd has expanded its comprehensive flooring installation, restoration, and repair services to a wider range of residential and commercial clients across South East London and Kent. The company, drawing on more than two decades of expertise, now delivers a full portfolio of flooring solutions to homeowners and businesses throughout the region.

The expanded offering covers Luxury Vinyl Tile, engineered and solid wood, laminate, carpet, and commercial safety flooring. In addition to installation, the company provides wooden floor restoration, carpet whipping and binding, gap filling for hardwood floors, and floor repair services for all floor types. This breadth of service allows the company to support projects from initial consultation and proposal through to installation and ongoing maintenance.

JJRM Flooring stocks materials from established brands including Amtico, Karndean, Kährs, and Westex Carpets. The company also operates a mobile showroom, bringing samples directly to clients, and offers next-day delivery on selected products. These features reflect a broader effort to make the flooring selection and fitting process more accessible for customers across the area served by JJRM Flooring - Eltham -

Flooring Bickley.

Riedwan Khan, Director of JJRM Flooring Ltd, said the expansion responds to steady demand from both domestic and commercial property owners. "After more than twenty years working in this field, the team has seen how much a well-fitted floor changes a space. The decision to widen the service area reflects the number of enquiries coming from across Eltham, Bickley, and the surrounding parts of Kent. The aim is to give every client the same standard of workmanship, whether the project is a single room or a full commercial fit-out."

The company has accumulated more than one hundred five-star reviews on Google and holds accreditation and approval within the industry. Its work spans residential renovations, commercial safety flooring installations, and specialist restoration projects that return older wooden floors to their original condition through sanding, polishing, and lacquering.

Khan added that the range of materials and services now available is intended to suit varied budgets and requirements. "Every property is different, and so is every floor. Having access to leading brands alongside skilled fitters means clients receive advice grounded in practical experience rather than guesswork. That consistency matters just as much in Bickley as it does anywhere else the team works."

The company continues to publish case studies and articles documenting its projects, providing prospective clients with a record of completed work across the region. Its services remain available to both domestic and commercial customers throughout South East London and Kent.

JJRM Flooring Ltd is a professional floor fitting company based in Bickley, South East London, serving domestic and commercial clients across the surrounding areas of Kent. With over twenty years of experience, the company provides installation, restoration, and repair services covering Luxury Vinyl Tile, wood, laminate, carpet, and commercial safety flooring, working with brands such as Amtico, Karndean, Kährs, and Westex Carpets.
