Index Fence Opens Walk-In Material Showroom for Homeowners

May 05, 2026

RALEIGH, NC - May 05, 2026 -
Index Fence Inc., a fencing contractor founded in 2020, has opened a walk-in material showroom where homeowners can handle the exact products that will be installed on their property before scheduling any work. The company, owned and operated by Behzad Namazifard, has installed more than 2,000 fences since opening and serves homeowners throughout the greater Raleigh metropolitan area.

The showroom at 4901 Craftsman Dr is open to walk-in visitors during regular business hours, with no appointment required. Homeowners can tour the stock room, compare lumber grades, pick up vinyl panels to feel the wall thickness, and review hardware before any project is quoted. The open-door policy reflects the company's approach to material transparency and stands in contrast to the industry norm of selecting materials entirely from a catalog or a salesperson's description.

Index Fence Inc. provides vinyl, aluminum, and wood fence installation along with fence repair. Vinyl privacy fencing accounts for roughly 70 percent of the company's completed projects. The company sources all vinyl from domestic manufacturers that produce virgin vinyl only, a material standard adopted to avoid the brittleness and discoloration that can develop with recycled or imported alternatives. The company also uses

Select #1 A-Grade premium pressure-treated wood for all wood installations, a higher lumber grade than many area contractors carry in stock. Index Fence Inc. became the first fencing contractor in its market to install Alta Pickets, a premium wood picket backed by a 10-year manufacturer warranty.

Construction standards at Index Fence Inc. include three horizontal rails on every six-foot fence, where many contractors install only two. Crews set every post at a two-foot depth with 80 to 100 pounds of concrete for vinyl and wood installations, providing a footing designed to resist shifting and leaning over time. A local staff member answers every call directly, with no third-party answering service, and the company commits to returning missed calls within one hour during business hours. Namazifard personally oversees fence repairs and visits job sites when his crew is short-staffed, a practice he has maintained since the company's first year. Index Fence Inc. also prepares all city permit documentation at no additional charge as part of each project quote, handling the paperwork so the homeowner does not have to navigate the permitting process alone.

The company carries a BBB A+ rating, maintains membership in the American Fencing Association, and was named a Nextdoor Favorite in 2025. That combination of third-party recognition and an open-door material policy reflects Index Fence Inc.'s position: a company that earns repeat business and referrals by making the buying process transparent rather than managing what homeowners are allowed to see before they commit. Homeowners who visit the showroom consistently leave with a clearer understanding of why material grades differ in price and what those differences mean for how the fence performs over time.

"We built this company on one idea: let people see what they're paying for before it goes in the ground," said Behzad Namazifard, Owner of Index Fence Inc. "Our stock room is open to anyone who wants to walk in, pick up a picket, and compare it to what other companies are putting in yards around here. That kind of transparency is how we earn trust."

For more information about residential fence installation or to schedule a free consultation, homeowners can call (919) 900-7225 or visit the company's office at 4901 Craftsman Dr during regular business hours. No appointment is needed. Homeowners can also view completed projects to learn more about the company's work in the area.
