Love Power Equipment Expands Tractor Dealership Inventory to Meet Growing Demand for Construction and Agricultural Equipment

June 22, 2026

HOMOSASSA, FL - June 22, 2026 -
Love Power Equipment, a heavy equipment dealer serving the Tampa Bay region and Central Florida, has expanded its inventory of construction and agricultural equipment to address increasing demand from contractors, landscapers, and property owners throughout the area. The expansion includes a broader selection of compact tractors, zero-turn mowers, excavators, wheel loaders, and specialized lifting equipment.

The Homosassa-based equipment dealer has increased its stock of both new and pre-owned machinery in response to market trends showing sustained growth in Florida's construction and property maintenance sectors. The expanded inventory encompasses equipment from multiple manufacturers, including Bad Boy, New Holland, and Giant, alongside a comprehensive selection of pre-owned equipment that undergoes detailed inspection before sale.

The company operates as a full-service tractor dealership in Tampa and surrounding areas, offering sales, service, parts, and financing options. Construction equipment represents another significant component of

the expanded inventory. The company stocks used excavators for sale, wheel loaders for sale, and skid steers for sale, catering to contractors working on residential and commercial projects throughout Central Florida. Additionally, the dealership offers articulating lift equipment for specialized construction and maintenance applications.

"Florida's construction and agricultural sectors continue to show strong demand for reliable equipment, and we're responding by ensuring our inventory meets those needs," said Chad Halleen, Owner of Love Power Equipment. "From contractors seeking used excavators to landscaping professionals looking for zero-turn mowers, we're positioning ourselves to serve as a comprehensive resource for the region's equipment needs."

Recent market analysis indicates particular demand for used Cub Cadet zero turn mowers among landscaping professionals and property maintenance companies seeking cost-effective solutions for their fleets. The dealership maintains an extensive selection of these mowers alongside other grounds maintenance equipment.

"We've observed distinct buying patterns across different equipment categories, with many customers preferring pre-owned options for certain applications," noted Halleen. "Our approach involves maintaining diverse inventory levels that accommodate both new equipment purchases and the growing market for inspected, quality used machinery."

The dealership provides comprehensive support services beyond equipment sales, including preventative maintenance programs, hydraulic diagnostics, engine repair, and full equipment inspections. The service department also offers custom hydraulic hose fabrication, addressing a critical need for equipment operators requiring rapid repairs to minimize downtime.

Financing options remain available for qualified buyers, with the company offering pre-approval processes designed to streamline equipment acquisition. Trade-in services allow customers to leverage existing equipment value toward new purchases, while demonstration scheduling enables prospective buyers to evaluate equipment performance before making purchase decisions.

Love Power Equipment serves the Tampa Bay region from its Homosassa location, providing agricultural and construction equipment solutions to contractors, farmers, landscapers, and property owners. The company maintains authorized dealership status with multiple equipment manufacturers and offers comprehensive service support, parts availability, and consultative guidance to ensure equipment selections align with operational requirements. The dealership operates Monday through Saturday, offering both in-person

consultations and equipment demonstrations for prospective customers throughout Central Florida.
