

Five Star Jewelers Offers Gold Buying Services Across Greater Miami Locations

May 06, 2026

MIAMI, FL - May 06, 2026 -
Five Star Jewelers offers gold buying services at its nine store locations in the Greater Miami area. Customers can sell unwanted gold items at the stores in Hialeah, West Flagler, Westchester, West Kendall, Country Walk, Kendall, Homestead, Miami Lakes, and Miami Gardens. Specialists conduct evaluations on site for items including jewelry, coins, bullion, scrap, and dental gold.

The company, founded more than 35 years ago by Jorge Carvajal, started as a family business with door-to-door sales. It has since expanded its network while maintaining its Cuban heritage and involvement in gold and fine jewelry. Gold buying complements other services at the stores, such as sales and repairs.

Specialists assess items through testing and weighing during customer visits. Offers are presented based on current market conditions. Proceeds may be taken as cash or applied toward other selections.

Industry data shows elevated gold prices in recent years. J.P. Morgan forecasts average prices reaching $5,055 per ounce by the fourth quarter of 2026, supported by central bank demand and investment interest. This environment affects valuations for sellers in the Miami region.

Five Star Jewelers provides custom design services, where customers work with designers and jewelers on personalized pieces. Repair and maintenance options include resizing, cleaning, and upkeep. Piercing studios handle professional ear and body applications. Financing through Affirm offers 0% APR for up to 60 months for qualified customers, subject to credit approval. Free home delivery processes orders in two to three days.

Selections at the stores include lab-grown diamonds with a focus on color, cut, and curation. Watches from brands such as Rolex, Bulova, Citizen, Caravelle, Movado, Omega, Patek Philippe, and TAG Heuer cover automatic, quartz, and smartwatch models. Chains are available in styles including cable, rope, box, and curb, using materials like yellow gold, white gold, rose gold, sterling silver, platinum, and stainless steel.

Philanthropic activities occur through the company's dedicated department. These include volunteer work with Habitat for Humanity, fundraising for St. Jude Children's Research Hospital, support for clean water projects, and the Mr. Dupree Business Scholarship for young entrepreneurs. Employee benefits include wellness options such as massage therapy, chiropractic care, nutrition consultations, and gym memberships for more than 80 staff members.

"Gold buying services help customers address items they no longer use while operating within current market conditions," said Jorge Carvajal, founder and president of Five Star Jewelers.

The business maintains operations in North America, Australia, and the United Kingdom. Stores follow uniform standards for product handling and service delivery. Design processes combine traditional techniques with contemporary preferences.

The availability of gold buying responds to regional needs in Greater Miami. Customers can visit any location for evaluations without prior scheduling.

Five Star Jewelers specializes in jewelry retail with services that include buying, custom creation, repairs, and appraisals. The organization operates through its network of stores. Return policies apply to items in original unworn condition, excluding custom designs. Appointments support consultations on selections or designs. Piercing services follow hygiene and safety protocols.

The company continues to adjust its offerings according to market developments and customer requirements in the Miami area. Gold buying remains one component of the full range of support provided to residents throughout Greater Miami and surrounding communities. The service operates year-round, allowing individuals to convert unused gold into immediate resources at any time. This fits within the broader operations of a business that has served the region for over three decades.
