

USA Cabinet Store Expands Regional Bathroom Remodeling Services to Alexandria Market

May 14, 2026

FAIRFAX, VA - May 14, 2026 -

USA Cabinet Store has expanded its dedicated regional designer model to include full-scope bathroom remodeling services for Alexandria, Virginia homeowners. The expansion complements the company's recently launched kitchen remodeling coverage in Alexandria and follows the same single-point coordination approach successfully implemented in Falls Church, Vienna, and McLean. To support the Alexandria market, the company has assigned a dedicated regional bathroom designer operating from its Fairfax showroom, with plans to increase design staff as local demand grows.

The expansion addresses the unique challenges Alexandria homeowners face during bathroom renovations, particularly in historic neighborhoods such as Old Town and Del Ray where aging infrastructure requires specialized expertise. Many properties feature original cast-iron plumbing, outdated electrical panels, and ventilation systems that no longer meet current building codes. Alexandria's historic districts require Board of Architectural Review approval for exterior modifications, and the city mandates a 35 percent non-refundable deposit for plan review.

"Alexandria's older housing stock often reveals hidden complications during demolition, from corroded pipes to inadequate waterproofing," said Emin Halac, President of USA Cabinet Store. "Our dedicated regional designer anticipates these issues during the planning phase and coordinates all necessary trades, providing clearer estimates that account for Alexandria's specific permitting requirements and housing characteristics."

The expansion comes amid elevated cost pressures in the bathroom remodeling market. The 50 percent tariff on imported cabinets effective January 1, 2026 has increased vanity costs by 20 to 28 percent, while Northern Virginia contractors face 4.5 to 6 percent year-over-year labor increases and recent Fairfax County permit fee adjustments have pushed bathroom remodel permits to $800 to $1,500. Alexandria bathroom remodeling costs significantly exceed national averages, with mid-range full renovations in Northern Virginia typically ranging from $17,000 to $35,000 compared to a national average of approximately $12,000. Luxury master bathroom transformations in the Alexandria market frequently surpass $65,000 to $115,000. According to industry data, mid-range bathroom remodels in the South Atlantic region recoup approximately 73.5 percent of investment at resale.

The regional bathroom remodeling services incorporate design directions identified in the NKBA 2026 Kitchen and Bath Trends Report. Current trends driving Alexandria projects include spa-inspired features such as curbless walk-in showers and soaking tubs, smart technology integration including touchless fixtures and heated flooring, stone drenching wall treatments, and accessibility-forward universal design layouts. The NKBA report found that 60 percent of industry professionals identify wellness-focused bathroom design as a leading direction for the next three years.

The dedicated Alexandria bathroom designer manages all aspects of renovation, including design consultation, fixture and material specification across brands such as Kohler, Brizo, and Delta, tile selection and waterproofing coordination, permitting documentation, and scheduling of licensed trades. This single-point model eliminates the coordination burden homeowners typically face when managing six to ten separate tradespeople.

USA Cabinet Store Fairfax serves as the operational hub for Alexandria homeowners seeking bathroom renovation services. The company, recipient of the NKBA Innovative Showroom Award at KBIS 2026, operates 14 showroom locations across multiple states. Since 2011, USA Cabinet Store has completed projects for more than 1,000 customers, specializing in kitchen and bathroom transformations that combine quality materials with professional design and installation services.
