

Better Builders Maintains Five-Star Excellence in Home Renovation Services Throughout Seattle Metropolitan Area

May 08, 2026

SEATTLE, WA - May 08, 2026 -
Better Builders, a Seattle-based design-build remodeling company with over 35 years of experience, continues to demonstrate exceptional service quality through consistent five-star client ratings across multiple review platforms. The company's sustained work in home renovation projects reflects its commitment to craftsmanship, customer satisfaction, and innovative design solutions for Seattle-area homeowners.

The company's portfolio of successful projects spans comprehensive home transformation services, from custom home building and whole-house remodels to specialized renovations including Kitchen Remodeling, bathroom updates, and outdoor living space enhancements. Each project undertaken by Better Builders reflects the same attention to detail and quality that has earned the company its stellar reputation throughout the Seattle metropolitan region.

"Our five-star ratings represent more than just customer satisfaction; they reflect our team's dedication to

understanding each homeowner's unique vision and delivering results that exceed expectations," said Pete Baughman, founder of Better Builders. "Every project, whether it's a complete home transformation or a focused kitchen renovation, receives the same level of craftsmanship and attention that has defined our company for over three decades."

The company's approach to home renovation combines traditional craftsmanship with modern building techniques and sustainable practices. This methodology has proven particularly effective in addressing the unique architectural styles and environmental considerations of Pacific Northwest homes. Better Builders specializes in high-performance renovations that enhance not only the aesthetic appeal of homes but also their comfort, functionality, and long-term value.

Beyond standard remodeling services, the company has expanded its expertise to include accessory dwelling units (ADUs) and detached accessory dwelling units (DADUs), addressing the growing need for flexible housing solutions in the Seattle area. These secondary housing units provide homeowners with options for multi-generational living, rental income, or additional living space while maintaining property value and neighborhood character.

The company's commitment to quality extends beyond project completion through its comprehensive five-year craftsmanship warranty, which exceeds standard industry offerings. This warranty program demonstrates Better Builders' confidence in its work and provides homeowners with peace of mind long after their renovation projects are complete.

Recent projects have showcased the company's versatility in handling diverse renovation challenges, from historic home preservation to contemporary design implementations. The team's expertise encompasses basement transformations, home additions, exterior renovations, and the creation of seamless indoor-outdoor living spaces that capitalize on the Pacific Northwest's natural beauty.

Better Builders operates as a full-service design-build firm, managing projects from initial concept through final construction. This integrated approach ensures consistent communication, streamlined project management, and cohesive design execution throughout the renovation process. The company's design team works closely with clients to develop customized solutions that align with both aesthetic preferences and practical requirements while respecting budget parameters.

With more than three decades of experience serving the Seattle metropolitan area, Better Builders has established itself as a partner for homeowners seeking quality renovation services. The company continues to build on its foundation of excellence, integrity, and customer-focused service delivery in every project

undertaken.
