

Put A Zombie On The Wall And Prepare For The Apocalypse - Wall Decal Now Offered By DSB Products

April 29, 2016

April 29, 2016 - PRESSADVANTAGE -

"Watch out for the Zombie Apocalypse" reads the wall decal now available from DSB Products, an e-commerce retailer located in Keller, Texas. The wall decal is available on the Amazon Marketplace. DSB Products is proud to announce that they have expanded their line of products. They have been selling the very popular line of 'Happy Cook' kitchen products since the spring of 2015. Now, they have added vinyl wall decals under the Brand WallDecalsAndArt to their offerings.

Several decals have been introduced prior to this Zombie wall decal, including themes from Dr. Seuss, Welcome to Our Home art, a nursery decal, Star Wars and more. This new decal, "Watch out for the Zombie Apocalypse," is very popular with fans of The Walking Dead and zombies in general. The company also intends to release a number of new decals in the coming weeks. All of the decals are available on the Amazon DSB Products Store.

This Zombie Apocalypse Wall Decal is Black Vinyl and displays a Walking Dead zombie and a hazardous toxic warning symbol with the words "Watch Out For The Zombie Apocalypse." The decal is 22 inches wide and 10 inches tall.

D.S. Barnett from DSB Products says, "This funny and 'scary' Zombie Wall Decal is great fun to have on your wall or mirror if you are a fan of The Walking Dead or any zombie movie or show, and is sure to enhance your wall decor and keep you alert for zombies. Make this is part of your Zombie Survival Kit."

This wall decal is made in the USA. Many wall decals are poor quality replicas made from PVC and imported from other countries. The wall decals offered by DSB Products are top quality vinyl, 3 mils thick, and transfer to your wall or any smooth surface and look as though they were painted on.

Each piece, letter, or character of the wall decal is a separate piece cut from vinyl. All of the pieces are mounted on a backing, positioned exactly as they should be for transfer to a wall in perfect position without any clear sheet between letters. Some wall decals are made of a solid sheet and are applied like wall paper, but do not look painted on due to the clear areas between the printing and drawings. Barnett added, "The solid sheet type decals are lower cost, lower quality, and do not compare to individually cut quality vinyl wall decals as offered by DSB Products. In addition, the decal can be removed without damaging the surface of the wall."

This Zombie Apocalypse wall decal is non-toxic, waterproof, durable and always easy to remove. The decal is rolled and shipped in a tube and never folded. Detailed application instructions are included with the decal and also included in a pdf document emailed to the customer after ordering. The instructions also reference videos available on YouTube where a customer can watch a wall decal being applied. According to D.S. Barnett, "After getting a wall decal and following the application instructions, your wall decal will look like it has been painted on the wall by a professional."
