

Restoration Health Provides Neurologically-based Corrective Chiropractic Care in Conway, AR

May 19, 2026

CONWAY, AR - May 19, 2026 - PRESSADVANTAGE -

Restoration Health Chiropractic provides neurologically-based corrective chiropractic services at its Conway, AR location. This site delivers the same standard of care available at the practice's primary facility, focusing on spinal health and nervous system function for individuals and families in the area.

The Conway chiropractic office maintains consistent diagnostic and treatment methods, ensuring residents have access to thorough evaluations and personalized care plans.

The clinical team supporting both locations includes experienced professionals. Dr. Michael Butler, Owner and Chief Vision Officer, is a native of Hope, Arkansas. He earned a bachelor's degree in nutrition from the University of Central Arkansas and his doctor of chiropractic degree from Life University, receiving advanced training in Chiropractic Biophysics, pediatrics, maternal care, and full spine techniques. His background as a multi-sport athlete and personal trainer shapes his focus on corrective methods and healthy lifestyle support.

Dr. Keith Beachy serves as Lead Doctor. An Arkansas native from Fort Smith, he holds board certifications in chiropractic and functional medicine along with certification in neuropathy. He completed a bachelor's degree in exercise science from the University of Arkansas and his doctor of chiropractic degree from Parker University, contributing expertise in root-cause approaches.

Initial appointments at the Conway location include a one-on-one consultation with a doctor to review health history and goals. This is followed by a complete spinal examination involving motion and static palpation, range of motion assessment, digital posture analysis, orthopedic and neurological testing, and digital motion X-rays. These tools provide real-time insights into joint function and spinal alignment to inform individualized treatment plans.

Chiropractic adjustments incorporate Chiropractic Biophysics techniques. This method is supported by more

than 150 peer-reviewed studies and seven textbooks. It applies principles of anatomy, physiology, neurology, physics, and geometry to help restore normal spinal alignment and support the body's natural healing processes.

The practice's mission is to serve the community through neurologically-based corrective chiropractic care. Its vision focuses on helping people make informed health decisions for themselves and their families, with the goal of creating a healthier generation less dependent on medications and more capable of fulfilling their purposes. Patient education is integrated throughout care to help individuals understand spinal mechanics and supportive daily habits.

Restoration Health Chiropractic addresses musculoskeletal concerns through full spine techniques and specialized care in pediatrics and maternal health. The Conway facility is designed as a state-of-the-art, welcoming environment that promotes patient comfort and relaxation during visits. Digital imaging and objective testing allow the team to observe structural factors that may contribute to discomfort or reduced function.

Dr. Michael Butler, Owner and Chief Vision Officer at Restoration Health Chiropractic, said, "The Conway location allows us to deliver consistent, thorough corrective care to more individuals in central Arkansas using the same advanced diagnostic tools and personalized planning found at our other offices."

Dr. Keith Beachy, Lead Doctor at Restoration Health Chiropractic, said, "Our combined backgrounds in chiropractic, functional medicine, exercise science, and biomechanics support comprehensive evaluations and targeted techniques to help optimize nervous system performance."

The Conway location integrates fully with the practice's operations, accepting new patients and maintaining identical care standards. Appointments follow a structured process beginning with detailed assessment and progressing to customized recommendations. Follow-up care builds on initial findings to monitor improvements in alignment, mobility, and overall function.

This approach reflects the practice's ongoing commitment to accessible chiropractic care. Educational resources complement in-office visits by encouraging habits that support spinal health between appointments. The team applies consistent protocols across locations while tailoring recommendations to each patient's unique needs and goals.

Restoration Health Chiropractic maintains a strong emphasis on neurological integrity and structural correction. The Conway office upholds the practice's patient-centered philosophy, combining professional expertise with a supportive atmosphere. By focusing on root causes rather than isolated symptoms, the team helps individuals work toward lasting improvements in health and daily function.

The availability of care at Conway increases convenience for residents of Faulkner County and surrounding communities. The practice continues to prioritize informed decision-making and natural wellness strategies. Its Conway presence reflects a dedication to community service through high-quality chiropractic methods.

Restoration Health Chiropractic operates with a foundation in scientifically informed principles. The Conway location expands reach while preserving the core values of thorough assessment, corrective techniques, and patient education that define the practice.
