

Huston Chevrolet Expands Service Capabilities as Leading Chevrolet Dealer in Highlands County

May 21, 2026

AVON PARK, FL - May 21, 2026 -
Huston Chevrolet, a family-owned dealership operating in Avon Park since 1980, has enhanced its service department capabilities to better serve the growing automotive needs of central Florida residents. The dealership has expanded its certified technician team and upgraded diagnostic equipment to accommodate increased demand for both routine maintenance and specialized repairs.

The expansion comes as the dealership continues to serve as a primary Chevrolet dealer serving central Florida, providing comprehensive automotive services to residents of Avon Park, Sebring, and Lake Placid. The enhanced service capabilities complement the dealership's extensive inventory of new and used Chevrolet vehicles, including the latest models of cars, trucks, and SUVs.

"After more than four decades of serving this community, we recognize the importance of evolving with our customers' needs," said April J. Morin, General Manager at Huston Chevrolet. "This expansion of our service capabilities ensures that every vehicle we sell continues to receive the highest quality maintenance and

support throughout its lifetime."

The dealership's service department now offers extended capabilities for everything from routine oil changes and tire rotations to complex engine diagnostics and transmission repairs. Each service technician undergoes regular training on the latest Chevrolet technologies, ensuring expertise across the entire lineup from the fuel-efficient Malibu to the powerful Silverado trucks.

Beyond service enhancements, the dealership maintains a comprehensive approach to automotive solutions. The parts department stocks genuine Chevrolet components and accessories, while the financing team works with multiple lending institutions to provide flexible payment options for both new and pre-owned vehicles. Every used vehicle in the inventory undergoes thorough inspection and reconditioning before being offered for sale.

The dealership's commitment to the local community extends beyond vehicle sales and service. As one of the area's longest-operating automotive businesses, the dealership has established relationships with local organizations and continues to contribute to the economic vitality of Highlands County.

"We take pride in being more than just a place to purchase a vehicle," added Morin. "Our goal is to be a trusted automotive partner for every customer, from their first test drive through years of ownership."

Huston Chevrolet specializes in the complete lineup of Chevrolet vehicles, including popular models such as the Equinox, Traverse, Tahoe, and Suburban SUVs, as well as the Colorado and Silverado truck lines. The dealership also maintains an extensive selection of pre-owned vehicles, including certified pre-owned Chevrolet models and vehicles from other manufacturers.

The dealership operates from its location in Avon Park, Florida, where it has served as a cornerstone of the local automotive market since 1980. As a full-service Chevrolet dealership, it provides new and used vehicle sales, financing services, genuine parts, and comprehensive vehicle maintenance and repairs.
