

Copycat Hearth & Home Features Tylö Indoor Saunas as Home Wellness Option

May 19, 2026

WEBSTER, WI - May 19, 2026 - PRESSADVANTAGE -

Copycat Hearth & Home is drawing attention to its selection of Tylö indoor saunas for residents interested in dedicated home wellness spaces. The offering provides an additional choice for homeowners exploring ways to incorporate relaxation and recovery routines into their residences.

Tylö saunas are available in various models suitable for indoor installation. Options include traditional high-heat designs as well as infrared versions, with capacities ranging from two to four persons, depending on the specific unit. These saunas are positioned as enhancements for areas such as master bathrooms or home gyms. The company notes that they can be integrated into existing home layouts through professional consultation and installation services.

Copycat Hearth & Home provides on-site consultations to assess space requirements, electrical needs, and placement options. Technicians manage the installation process to ensure compliance with safety standards and local codes. Ongoing support includes maintenance and repair services for sustained performance. Pricing varies by model and configuration, with details available through direct inquiries or showroom visits for accurate quotes based on individual project specifications.

The saunas are part of the retailer's broader inventory focused on home comfort. Customers can view working displays and receive guidance on selection during store hours. This availability allows for informed decision-making prior to purchase.

A recent Yelp reviewer highlighted overall satisfaction with the company's services, noting positive experiences with product selection and installation support in the region. Such feedback underscores the practical value of working with local experts for home projects.

"Saunas provide a dedicated space for relaxation and recovery at home," said Bill Estridge, Owner of Copycat Hearth & Home. "Tylö models give our customers practical choices for integrating wellness into their daily lives in a way that fits their specific homes and routines."

The company maintains a focus on complete customer support from initial consultation through ongoing service. This includes guidance on proper use and care to help owners maximize their investment over time.

"Many homeowners appreciate having convenient access to sauna sessions as part of their routines," added Estridge. "Our team works to make the process straightforward from selection to setup."

Copycat Hearth & Home traces its history to 1982, when Russ Estridge founded Copycat Fabricators in Danbury, Wisconsin. The business originated with stove manufacturing in a garage before expanding. In 1998, Rick and Terri Estridge took ownership, relocated operations to Webster, and broadened the product range. In 2021, Bill and Jessie Estridge assumed leadership as the third generation, continuing the family-owned approach.

The current facility at 26500 Lakeland Ave N in Webster spans more than 4,000 square feet and includes over 28 live burning displays. The showroom features a range of hearth products such as fireplaces, stoves, and inserts in gas, wood, pellet, and electric options. Additional categories encompass hot tubs, swim spas, Tylö saunas, related chemicals and accessories, stone products, accent furniture, home décor, lighting, and gift items.

Service offerings cover repairs and installations for most brands, on-site consultations, water analysis, trade-ins, test soaks, chimney cleaning and repairs, and winterization. The business serves communities across northwestern Wisconsin and adjacent areas in Minnesota, operating with a commitment to competitive pricing and knowledgeable assistance.

Tylö saunas are in stock and available for purchase, with custom configurations possible based on customer needs. Interested homeowners are encouraged to contact the store for current availability, pricing details, and

scheduling of consultations. This approach ensures each installation aligns with the unique requirements of the property and user preferences.

By offering these sauna solutions alongside its established hearth and spa products, Copycat Hearth & Home continues to support local residents seeking practical enhancements for daily living. The emphasis remains on providing reliable products backed by local expertise and service.
