Ryan & Gordy?s Glass Simplifies Insurance Claims Process for Auto Glass Repair Services

May 19, 2026

HASTINGS, MN - May 19, 2026 -
Ryan & Gordy?s Glass highlights its streamlined approach to handling insurance claims as part of its comprehensive auto glass repair services, helping vehicle owners navigate repairs with minimal hassle. The company, operating since 1972 with locations in Hastings and Red Wing, Minnesota, works directly with insurance providers to coordinate approvals, documentation, and billing for windshield repairs, replacements, and related glass work.

Auto glass repair addresses common issues such as rock chips, cracks, bull?s eye breaks, star breaks, half-moon breaks, and combination damage. Technicians evaluate each instance to determine whether a repair using specialized resins can restore the glass or if a full replacement is required. Services cover windshields, door glass, rear windows, automotive mirrors, pickup truck rear sliders, topper glass, and installations for recreational vehicles and heavy equipment. Premium Sika adhesives ensure strong, durable bonds that meet safety standards.

Mobile service brings certified technicians directly to customers at home, work, or roadside locations throughout Minnesota and Wisconsin. This capability allows for on-site auto glass repair or replacement

without requiring customers to transport their vehicles. For situations where shop service is preferred, the company offers loaner vehicles at its facilities, enabling customers to maintain their daily routines while repairs are completed.

The insurance assistance process involves direct communication with providers to secure approvals and handle necessary paperwork. This support reduces the administrative load on vehicle owners, making the experience more efficient from initial assessment through final installation. Free estimates provide clear information on options, costs, and coverage details before any work begins. Emergency services are available for urgent cases where immediate attention prevents further damage or safety concerns.

Technicians hold Auto Glass Association certifications and follow protocols from the National Glass Association, of which the company is a member. This training ensures precise work, proper curing times, and adherence to manufacturer guidelines for structural integrity. For vehicles with advanced features, recalibration services restore the function of related safety systems after glass installations.

Beyond automotive needs, Ryan & Gordy?s Glass delivers residential and commercial glass solutions. Home services include custom shower doors and enclosures, mirror production and installation, window replacements, patio table tops, fireplace glass, tempered glass, and custom cuts of Plexiglass and Lexan sheets. Commercial projects encompass storefront replacements, office installations, and industrial applications designed to minimize business interruptions.

Jay Ryan, co-owner of Ryan & Gordy?s Glass, said, "Working directly with insurance companies allows us to simplify what can otherwise be a complicated process for customers seeking auto glass repair. Our goal is to handle the details so vehicle owners can focus on their safety and schedules."

Ryan added, "Mobile service combined with insurance coordination and the availability of loaner vehicles creates a complete solution that fits into customers? lives. We?ve built our reputation on making quality glass work accessible and stress-free."

Customer feedback reflects the effectiveness of these services. One reviewer described a positive experience with a cracked windshield where the company initiated the insurance process and managed all aspects. Another noted excellent service after dropping off a vehicle, including the use of a loaner car for convenience during repairs.

With over five decades of operation, Ryan & Gordy?s Glass continues to serve communities across Minnesota and Wisconsin. The family-owned business maintains two convenient locations while emphasizing mobile capabilities to reach customers wherever they are. This combination of experience, certification, and customer-focused processes supports reliable outcomes for auto glass repair needs.

The company?s approach aligns with the practical realities of vehicle ownership, where unexpected glass damage can disrupt plans. By offering comprehensive support from assessment to completion, Ryan & Gordy?s Glass helps ensure vehicles remain safe, compliant, and road-ready. Free estimates and flexible scheduling options further contribute to accessibility for both insured and uninsured customers.
