## **Big Ben Lawyers Expands Legal Support for Victims of Amazon and UPS Truck Accidents**

*May 29, 2026*

GLENDAL, CA - May 29, 2026 - PRESSADVANTAGE -

Big Ben Lawyers has expanded its specialized legal services to address the growing complexity of commercial delivery truck accidents across Southern California. The firm now provides comprehensive legal representation for individuals injured in collisions involving major delivery companies, taking over the investigative and insurance battles that often overwhelm accident victims.

The expansion comes as delivery truck traffic continues to surge throughout California, with commercial vehicles from major carriers creating unique legal challenges for accident victims. Unlike standard vehicle collisions, accidents involving commercial delivery trucks often involve complex corporate structures, multiple insurance policies, and questions about driver employment status that can complicate compensation claims.

"Commercial delivery truck accidents require a fundamentally different legal approach than typical car accidents," said Benjamin Charchian, Managing Partner at Big Ben Lawyers. "These cases involve layers of corporate entities, contractor relationships, and insurance coverage that victims cannot navigate alone while

trying to recover from their injuries. We handle these complexities so our clients can focus on healing."

The firm's enhanced services address a critical gap in legal representation for delivery truck accident victims. Many individuals injured in these accidents discover that determining liability extends far beyond identifying the driver. The investigation must examine whether drivers operate as employees or independent contractors, which corporate entity owns or leases the vehicle, and which insurance policies provide coverage.

As an Amazon truck accident lawyer, the firm handles cases involving the retail giant's extensive delivery network, which includes both company-employed drivers and third-party delivery partners. These distinctions significantly impact how claims proceed and which parties bear responsibility for damages.

The firm's approach involves immediate investigation to preserve evidence, identification of all potentially liable parties, and aggressive negotiation with multiple insurance companies that may be involved. This comprehensive strategy ensures that victims receive full compensation for medical expenses, lost wages, pain and suffering, and other damages resulting from delivery truck accidents.

Recent data from the California Highway Patrol indicates that commercial vehicle accidents have increased alongside the growth in e-commerce deliveries. These accidents often result in severe injuries due to the size and weight disparity between delivery trucks and passenger vehicles.

Similarly, as a FedEx truck accident lawyer, the legal team navigates the particularly complex structure of FedEx Ground operations, where independent contractors operate many delivery vehicles. This arrangement creates additional layers of liability questions that require thorough investigation and experienced legal analysis.

The expanded services build on the firm's established reputation in personal injury law. Big Ben Lawyers operates on a contingency fee basis, meaning clients pay nothing unless the firm wins their case. This arrangement ensures that all accident victims can access quality legal representation regardless of their financial situation.

Big Ben Lawyers maintains offices throughout Southern California, including locations in Glendale, Fresno, Ontario, Riverside, Sacramento, and San Bernardino. The firm specializes in personal injury cases, including car accidents, motorcycle accidents, pedestrian accidents, and commercial vehicle collisions. Rated among the top 2.5 percent of accident lawyers in Southern California by Thompson Reuters, the firm has secured millions in settlements for clients across the region.
