

Fitlife Foods Expands Corporate Meal Solutions Program to Transform Workplace Wellness

May 27, 2026

TAMPA, FL - May 27, 2026 - PRESSADVANTAGE -

Fitlife Foods, the Florida-based chef-prepared meal brand known for fresh, all-natural ingredients, has expanded its corporate meal solutions program to serve businesses throughout Florida and Georgia. The comprehensive program enables companies to provide employees with nutritious, chef-crafted meals as a workplace benefit, addressing growing demand for wellness-focused employee perks.

The expanded program offers multiple service options designed to accommodate diverse workplace needs, including weekly corporate lunch programs, solutions for remote teams, and dedicated Fitlife Fridges for office locations. Companies can create fully customized meal plans that align with their workforce preferences and dietary requirements, selecting from an extensive menu that includes FitMeals, FitBreakfasts, FitSnacks, and FitSweets.

Founded in 2011 in Tampa, Florida, Fitlife Foods has established itself as a leader in providing fresh, perfectly portioned meals free from artificial ingredients. The company currently operates retail locations across Florida and Georgia while also offering eco-friendly home delivery services. The corporate program expansion represents a strategic response to increasing requests from businesses seeking to enhance

employee wellness initiatives.

"Organizations are recognizing that providing healthy meal options directly impacts workforce productivity and satisfaction," said Penny Primus, VP of Marketing & Customer Experience at Fitlife Foods. "Our corporate meal solutions eliminate the daily stress of meal planning while ensuring employees have access to nutritious, chef-prepared options that support their wellness goals and contribute to a more productive office environment."

The program addresses several workplace challenges simultaneously. Employees save time typically spent on meal preparation and planning, allowing them to focus on professional responsibilities. Companies benefit from enhanced employee satisfaction, reduced afternoon energy slumps associated with unhealthy lunch choices, and a tangible demonstration of investment in workforce wellbeing.

Each meal offered through the corporate program maintains the same quality standards as those available at Fitlife Foods retail locations. Menu items feature fresh ingredients, balanced macronutrients, and clear labeling for dietary preferences, including low-carb, high protein, dairy-free, low-sodium, and gluten-free options. The variety ensures that employees with different nutritional needs and taste preferences can find suitable options.

Implementation of the program requires minimal effort from human resources or operations teams. Fitlife Foods works directly with each company to design delivery schedules, payment structures, and menu rotations that align with organizational needs. The flexibility extends to accommodating both small startups and large corporations, with scalable solutions that can grow alongside the business.

The expansion comes at a time when employee retention and satisfaction have become critical business priorities. Companies increasingly view comprehensive wellness benefits as essential for attracting and retaining talent in competitive markets.

Fitlife Foods continues to support local organizations and initiatives promoting health, wellness, and access to nutritious food throughout the communities it serves. The corporate meal solutions program extends this mission by making healthy eating more accessible in workplace settings across the Southeast.
