

Your Car Our Driver Launches Personal Chauffeur Service for Orange County, CA Collector Vehicle Owners

May 26, 2026

NEWPORT BEACH, CA - May 26, 2026 -
A Newport Beach company sends a trained driver to the client's home and operates the client's own vehicle for the trip.

Your Car Our Driver, a personal chauffeur service in Orange County, CA, has launched a private-driver program for residents who prefer to use their own vehicle instead of a fleet black car. The company dispatches a screened, professionally trained chauffeur to the client's home, drives the client in the client's own car, and returns the vehicle to the garage at the end of the trip.

The program is built around a documented pattern in the Orange County, CA market. According to California Auto Outlook, LA and Orange Counties accounted for 306,220 new retail registrations in the first half of 2025, up 2.3% year over year.

Your Car Our Driver was built to close that gap. The service pairs a screened chauffeur with the vehicle the client already owns, including exotic, luxury, and collector models. Coverage spans the John Wayne Airport corridor along the 405, Pacific Coast Highway, and coastal Orange County communities such as Newport Coast, Laguna Beach, and Coto de Caza.

"For years, owners of high-value vehicles told us the same thing," said the founder of Your Car Our Driver. "They wanted to use the car they own for a dinner with wine on the table, and they wanted a professional behind the wheel for the drive home. The service exists to make that the default option."

Common use cases include evening dinners, charity galas in Costa Mesa, regional sporting events, weddings in Dana Point, and round-trip airport runs to John Wayne Airport (SNA). The company also schedules recurring weekly drivers for clients with standing calendars. "Most clients start with a single evening and shift to recurring service within the first month," added the owner. "That changes how often the car actually leaves the garage."

Booking is available through the company's personal chauffeur service listing. Same-day requests are accepted subject to chauffeur availability, and recurring weekly arrangements are offered for clients with standing schedules.

About Your Car Our Driver

Your Car Our Driver is a personal chauffeur service headquartered in Newport Beach, California. The company provides professionally trained drivers to clients across Orange County, Los Angeles County, San Diego County, and the Inland Empire. Service specialties include evening and event chauffeur work, airport transfers, multi-day travel, and recurring weekly drivers. The company's focus is keeping the client in the vehicle they already own, with a trained professional at the wheel.
