

HomeStar Windows & Doors Highlights Exclusive ProVia Certification Status in Utah

May 27, 2026

DRAPER, UT - May 27, 2026 -

HomeStar Windows & Doors, the only certified ProVia installer in Utah, is emphasizing its unique position in the state's home improvement market while showcasing its comprehensive window and door solutions at its Draper showroom. The distinction underscores the company's commitment to providing installation services backed by specialized manufacturer training and certification.

The ProVia certification represents a significant credential in the window and door industry, requiring installers to meet stringent standards for product knowledge, installation techniques, and customer service. As the sole certified ProVia installer in Utah, HomeStar Windows & Doors in Draper offers homeowners access to ProVia's product lines with the assurance of factory-approved installation methods.

"Being the only certified ProVia installer in Utah reflects our dedication to excellence and our investment in proper training and certification," said Jessica Balser, spokesperson for HomeStar Windows & Doors. "This certification means our customers receive installations that meet the highest manufacturer standards,

optimal performance, and maintain full warranty coverage."

The company's Draper showroom serves as a comprehensive resource center where homeowners can compare products from eight leading window and door manufacturers. This unique setup allows customers to evaluate different brands, styles, and price points during a single visit, streamlining the selection process for home improvement projects.

HomeStar Windows & Doors distinguishes itself through its use of in-house installation crews rather than subcontractors. The company's team manages every aspect of the installation process, from initial measurements to final cleanup, and consistency and accountability throughout each project. This approach has enabled the company to complete hundreds of projects across Provo and surrounding communities.

The company's installation process begins with a free, no-pressure home consultation where specialists assess the property's specific needs and discuss available options. Following custom ordering and scheduling, HomeStar's professional crews handle the installation with attention to protecting the home and completing thorough cleanup after each project.

All installations come with lifetime workmanship coverage, providing homeowners with long-term protection for their investment. The company's crews specialize in products designed specifically for Utah's climate conditions, ensuring that new windows and doors perform optimally in the state's varying weather patterns.

The Draper showroom location provides convenient access for homeowners throughout the region to view window and door options in person. Customers can examine different materials, styles, and features while receiving expert guidance from knowledgeable staff members who understand the unique requirements of Utah homes.

HomeStar Windows & Doors maintains full licensing and insurance as a Utah contractor, with decades of combined experience in the window and door replacement industry. The company offers products ranging from replacement windows and entry doors to patio doors and pet doors, addressing diverse home improvement needs. Through its referral program, satisfied customers can share their positive experiences while earning rewards for recommendations that lead to new projects.
