

New Certified Professional Medical Auditor CPMA Course Launched By CCO

May 09, 2016

May 09, 2016 -

Oceanville, NJ training company Certification Coaching Organization, LLC, is proud to announce the launch of their latest course. Their Physician Based Medical Auditing Course - Certified Professional Medical Auditor (CPMA®) Course - is designed for those who want to become CPMA certified, which is a certification offered by the AAPC. The course enables them to master all the information they need to in order to pass the certification exam.

Laureen Jandroep, CPC, CPC-I, COC, CMSCS, CHCI, CPPM, founder and CEO of Certification Coaching Organization, LLC explained: "We're very excited about delivering this new course. It helps to teach the core material needed to pass the CPMA® exam, and we're so happy to see that our students have already had pass rates and feel our course is to thank for that. This is why we do it."

The course is based on the CPMA® Course Textbook from the AAPC. This means that students are ensured to learn the material they actually need for the exam. It has been designed for certified coders who already have two years working experience or more. It is also suitable for people who are hoping to earn their CPMA credentials and who prefer studying online. The course has been made up of different models, which includes

videos, written materials, practice exercises, private access to a discussion forum, and a personal coach to help students get to grips with their medical coding tools.

Those who have used the course, or other courses delivered by Certification Coaching Organization, LLC, have been very positive about the results, as can also be seen on their medical coding Facebook page. "I started following CCO & Laureen as a student in another school & liked her style of teaching the way she explained coding so simply & with humor," says Lori Woods on Facebook. "The free resources CCO provides through free ceu webinars & You-Tube & free resources are just invaluable. I also used the CCO Blitz to help me pass my CPC! I liked CCO so much I joined them so I can help other new coders become successful in their coding careers."

Others are encouraged to like the Facebook page for further information.
