

A Plus Garage Door Repair Announces Extended Installation Program Through July 2026

May 29, 2026

SALT LAKE CITY, UT - May 29, 2026 -
A Plus Garage Door Repair has announced an extended installation program for Salt Lake City residents that will continue through July 31, 2026. The program includes a $200 discount on new garage door purchases and zero percent financing options for qualified applicants.

The announcement comes as the Remodeling Cost vs. Value Report indicates garage door replacements can recoup 194 percent of investment value at resale, according to data from Remodeling Magazine and the National Association of Realtors. This positions garage doors among home improvements with the highest return on investment.

"The extended timeline of this program reflects current market conditions where homeowners are seeking cost-effective home improvements," said Carrie Kelsch, spokesperson for A Plus Garage Door Repair. "Garage door replacements address multiple homeowner priorities including energy efficiency, security enhancements, and property value increases."

The program applies to steel, glass, insulated, aluminum, wood, wood composite, and custom design installations. Each installation includes professional assessment of architectural compatibility and climate-specific requirements for the Salt Lake City area. The discount requires coupon presentation at time of sale and cannot be combined with other offers. Services are available Monday through Friday from 8 a.m. to 5 p.m.

A Plus Garage Door Repair for Salt Lake City homeowners encompasses installation, repair, and maintenance services across multiple neighborhoods including Downtown, Sugar House, Capitol Hill, The Avenues, Liberty Wells, East Bench, Glendale, Rose Park, Yalecrest, Bonneville Hills, Poplar Grove, and Central City.

The company's Diamond Service Club provides annual inspections and preventive maintenance programs designed to extend equipment lifespan and prevent unexpected failures. This maintenance program includes 24-point inspections and scheduled lubrication services.

Commercial services offered by the company include high-speed doors, fire safety garage doors, and sectional doors for businesses throughout the Salt Lake City metropolitan area. Emergency repair services remain available 24 hours daily for residential and commercial clients experiencing urgent situations.

The financing component allows qualified applicants to spread installation costs over time without interest charges. Eligibility determination occurs during the initial consultation process, with terms varying based on individual credit qualifications.

A Plus Garage Door Repair maintains certifications from the International Door Association (IDEA) as a Certified Residential installer. The company has received recognition from the Better Business Bureau, Home Advisor, and Best of State awards. The business operates from its Salt Lake City location and has served the metropolitan area since its establishment.

The extended program timeline provides homeowners additional time to plan garage door replacements while accessing the announced pricing structure. Installation scheduling accommodates seasonal considerations and individual project requirements throughout the program period.
