

## **A Plus Garage Door Repair Announces Extended Service Program Through July 2026**

*May 29, 2026*

WEST JORDAN, UT - May 29, 2026 - PRESSADVANTAGE -

A Plus Garage Door Repair, a garage door service provider based in West Jordan, Utah, has announced an extended service program that will run through July 31, 2026. The program encompasses repairs, replacements, and maintenance services across the Salt Lake City metropolitan area.

The service program includes four categories addressing common garage door maintenance needs. The program features pricing adjustments for the LiftMaster Elite Series Garage Door Opener installation, spring replacement services, new door installations, and maintenance packages. The LiftMaster Elite Series includes two-way audio communication, MyQ App connectivity, a 360-degree LED light ring with 2,000 lumens output, battery backup systems, and DC motor operation.

Spring replacement services are available for both single and dual spring configurations, addressing mechanical failures that account for approximately 90 percent of garage door malfunctions according to industry data. The program also covers complete door replacement services and includes a 24-point safety

inspection combined with annual maintenance service.

"Heat expansion during summer months affects metal components differently than in cooler seasons, and we see increased service requests during this period," said Carrie Kelsch, Service Manager at A Plus Garage Door Repair. "The extended timeframe through July 2026 allows property owners to schedule maintenance at their convenience while addressing safety and operational concerns."

The company operates throughout the Salt Lake City region, including service areas in Ogden, Layton, Park City, Provo, St. George, and Hurricane. A Plus Garage Door Repair specials are available to both residential and commercial customers during standard business hours, Monday through Friday from 8 a.m. to 5 p.m.

Program terms require presentation of documentation at time of service, with one program benefit applicable per visit. The service options cannot be combined with other programs. The company also provides financing options through third-party lenders for qualified applicants.

Beyond the current program, the company provides emergency repairs, commercial installations, and specialized maintenance services. Technical services cover garage door opener brands, spring systems, cables, panels, remotes, eye sensors, and weather seals. The company maintains certification from industry organizations and follows manufacturer specifications for all installations and repairs.

A Plus Garage Door Repair near West Jordan maintains showroom locations in Salt Lake City and St. George, displaying various door styles and materials including steel, glass, insulated, aluminum, wood, wood composite, and custom designs. The company has received recognition from the Better Business Bureau, Home Advisor, and industry organizations.

The West Jordan facility serves as the company's primary operations center for the Utah market. The company has accumulated over 27,000 customer reviews since its establishment in the region. The facility coordinates service dispatches, maintains inventory for common repairs, and houses administrative operations for the company's Utah service territory.
