

A.M.B. Lift Inc Marks Over Three Decades as Ottawa's Locally Owned Forklift and Material Handling Dealer

May 29, 2026

CARP, ON - May 29, 2026 - PRESSADVANTAGE -

A.M.B. Lift Inc. is marking more than 30 years of continuous operation as Ottawa's locally owned forklift and material handling dealer, a milestone that reflects sustained demand for industrial equipment sales, service, and rental across Eastern Ontario. The anniversary positions A.M.B. Lift Inc. among the longest-tenured independent material handling dealers in the region and underscores the company's role as a consistent resource for Ottawa-area businesses managing warehouse, logistics, and manufacturing operations.

The company was established in Ottawa and has remained independently owned and operated throughout its three-decade history, a distinction that separates it from national chains and franchise-based equipment dealers. Independent ownership allows A.M.B. Lift Inc. to make operational and inventory decisions based on local market conditions rather than national directives, a structural difference that affects response times, parts availability, and service flexibility for clients managing time-sensitive equipment needs.

Over its operating history, A.M.B. Lift Inc. has secured authorized dealer status for several major equipment

brands, including UniCarriers, Hyundai, Moffett, and Genie. That multi-brand portfolio allows the company to match clients with equipment suited to their specific load capacities, facility configurations, and fuel preferences rather than limiting recommendations to a single manufacturer's catalogue. For businesses evaluating equipment purchases or fleet replacements, access to multiple lines through a single regional dealer simplifies the procurement process.

Thirty years in this market means seeing a lot of change in how businesses approach material handling, said Trevor Barclay, Owner of A.M.B. Lift Inc. The companies that have stayed with us over that time do so because the service is consistent and the equipment knowledge goes deep. That's not something a newer operation can replicate quickly, and it's what the anniversary means to this business.

A.M.B. Lift Inc.'s service offering covers forklift rental in Ottawa for clients requiring short- or long-term equipment access without capital purchase commitments, alongside outright sales and a full service and parts program. The rental segment addresses demand from businesses managing seasonal volume fluctuations, project-specific lifting requirements, or interim coverage during equipment maintenance windows. Rental agreements can be structured across daily, weekly, and monthly terms depending on operational need.

The company also provides lift truck rental in Ottawa options as part of its broader fleet management services, which include preventive maintenance scheduling, compliance inspection support, and operator training coordination. Ontario regulations require that forklifts undergo annual safety inspections, and A.M.B. Lift Inc. supports clients in meeting those requirements through its service department. Compliance failures carry financial and operational consequences for businesses, making regular inspection partnerships with qualified dealers an operational priority rather than an optional service.

A.M.B. Lift Inc. has also expanded its geographic footprint with the addition of a Peterborough branch, extending the company's service coverage across a broader section of Eastern Ontario. That expansion reflects growing demand for material handling support outside of the Ottawa core and provides businesses in the Peterborough corridor with access to the same inventory, service capacity, and brand authorizations available through the Ottawa location. The company has also identified rising demand for electric forklift solutions as Ontario warehouses shift away from propane-powered equipment in response to indoor air quality requirements and evolving sustainability considerations.

About A.M.B. Lift Inc: A.M.B. Lift Inc. is an Ottawa-based, locally owned forklift and material handling dealer with over 30 years of operation across Eastern Ontario. The company provides forklift sales, rental, parts, and service for residential and commercial clients, holding authorized dealer status for UniCarriers, Hyundai,

Moffett, and Genie product lines. A.M.B. Lift Inc operates from locations in Ottawa and Peterborough.
