

New Certified Physician Practice Manager CPPM Course Launched

May 05, 2016

May 05, 2016 - PRESSADVANTAGE -

Certification Coaching Organization, LLC, which is based in Oceanville, NY, is committed to ensuring that medical coders can learn their skills, become certified, and stay certified. Thus, they have announced the launch of their new course, the Physician Practice Management Course. The course has been designed for students who look at obtaining Certified Physician Practice Manager (CPPM®) certification, which is delivered by the AAPC.

"The Certified Physician Practice Manager (CPPM®) credential is a logical next step for those with strong experience in other areas of healthcare and are ready to advance their careers in physician practice management," says Laureen Jandroep, CPC, CPC-I, COC, CMSCS, CHCI, CPPM, founder and CEO of Certification Coaching Organization, LLC. "Our course helps to teach the core materials needed to pass the CPPM® Exam."

The training company offers a number of medical coding tools and training opportunities, all of which have been very positively received by their many students. Those who have completed training through the company have been very happy with the results, with almost all reporting full pass rates on their various

certification exams.

With the CPPM® course, students will gain the necessary understanding on various topics. These include fraud, abuse and corporate compliance; HIPAA and data security; health care business reform, process and workflow; quality in health care; marketing and business relationships; health IT, EMRs and health information exchange; and medical office accounting, revenue cycle management and physician reimbursement.

"I took the CPC exam for the first time and found out yesterday that I passed," says Cheryl B. on the company's training page. "I took a coding course at another school and had the knowledge, but it didn't all come together until after I watched the Blitz prep videos. Then the light bulb went on and everything I had learned to date suddenly made perfect sense. There is no doubt in my mind that I wouldn't have passed the exam without those videos. The bubble/highlight technique was also invaluable. Thank you so much for helping me become a CPC-A!"

Those who are interested are encouraged to visit the medical coding Facebook page for further information on the various courses and reviews.
