CCO Offers New ICD-10-CM Online Course For Medical Coders

April 22, 2016

April 22, 2016 - PRESSADVANTAGE -

Oceanville, NJ business Certification Coaching Organization, LLC, (CCO) has added a new course. The ICD-10-CM online course is an 80 hour course designed for medical coders who wish to master their understanding of ICD-10-CM. ICD-10-CM is the International Statistical Classification of Diseases and Related Health Problem - 10th Revision, and is an invaluable piece of knowledge for medical coders.

Certification Coaching Organization LLC's founder and CEO Laureen Jandroep, CPC, CPC-I, COC, CMSCS, CHCI, CPPM, says: "My company's goal is to make sure medical coders become the best they can be. We want them to learn all the information they need to know about, so that they can not only become certified, but stay certified as well. The new course is the latest in a long line of coding courses that we offer and, as always, it comes with a full satisfaction guarantee."

ICD-10-CM is a diagnosis classification system developed by the Centers for Medicare and Medicaid Services (CMS) and the National Center for Health Statistics (NCHS), for coding and reporting in the healthcare environment of the United States. It contains thousands of codes and the training delivered by Certification Coaching Organization helps medical coders understand their application and use in a

healthcare setting. The company offers a range of training courses in the various medical coding tools that exist, and this one is proving to be particularly popular.

Those who have enrolled in the new course have been very positive about what they have learned and the method of delivery. " I learned so much about ICD-10 and it definitely alleviated my anxieties about taking the proficiency assessment," says Lesley D. on Certification Coaching Organization's website. "Alicia was an excellent speaker and not one second did I think of the presentation as boring. I highly recommend the ICD 10 blitz to anyone looking for a quick, fun way of learning."

People are also encouraged to like the medical coding Facebook page. In so doing, they will be kept up to date with any new courses that are offered. Furthermore, it will provide them with an opportunity to network with their peers.
