

New CPC® Practice Exam For Medical Coders Launched By CCO

May 02, 2016

May 02, 2016 -

To become certified as a coder or medical biller, it is important to be properly qualified and certified. Certification Coaching Organization, LLC, based in Oceanville, NJ, is committed to ensuring people are able to learn the information they need, become certified and stay certified. They are proud to announce, therefore, that they have launched a new course, a CPC® Practice Exam. The actual Certified Professional Coder (CPC®) Exam is administered by the AAPC, and the new practice exam has been designed to help students prepare for it and increase their chances of passing.

Laureen Jandroep, CPC, CPC-I, COC, CMSCS, CHCI, CPPM, Founder and CEO of Certification Coaching Organization, LLC, says: "Our CPC® Practice Exam prepares students for the real deal. A lot of students worry about this exam, as pass rates are quite low. Our practice exam has been created by certified instructors to look and feel just like the real thing. We pay attention to detail, include an answer rationale, provide you with instant results, and more. Plus, you can retake the practice exam as often as you like. We're happy to see that people are already benefiting from it."

The practice exam focuses on the three main sections of the CPC® exam itself, which are medical concepts,

surgery and modifiers, and other CPT Codes. Additionally, the medical coding tools offered by Certification Coaching Organization, LLC follow a proven method that helps students to pass the CPC® examination itself. The test is also timed to create a realistic feeling. Those who take part and obtain a score of 85% or more can know that they will pass the real test as well.

Those who already have, have been full of praise about their experiences. "I passed my CPC exam on first try with 80%," says Lisa C. on the training company's website. "I could not have done this without the Blitz videos and practice exams. The bubble and highlighting really assisted in my getting thru all 150 questions in the allotted time. My thanks to Laureen and the team as I could not have done it without you guys."

People are encouraged to give the Facebook page for medical coders a like to be kept up to date with any new courses.
