

## **USA Cabinet Store LLC Expands Bathroom Remodeling Services with Dedicated Designer Model in Cary**

*June 11, 2026*

Cary, NC - June 11, 2026 - PRESSADVANTAGE -

USA Cabinet Store LLC has expanded its existing dedicated regional designer model, initially established for kitchen renovations, to now include bathroom remodeling projects at its Cary, North Carolina showroom, providing homeowners with a single point of contact who coordinates every aspect of the project from initial design through final installation.

The expansion of this service model comes as Cary homeowners face an elevated housing market where average home values hover around \$600,000, according to recent Zillow data, representing a slight 1.4 percent decline year-over-year. With median sale prices at approximately \$610,000 according to Redfin, and home values sitting 41 percent above the North Carolina state median of \$367,600 as reported by Bankrate, many homeowners are choosing to upgrade aging or builder-grade bathrooms rather than relocate.

The bathroom remodeling process typically involves coordinating multiple trades including plumbing, tile installation, lighting, and layout modifications simultaneously. According to industry research from the

National Kitchen & Bath Association (NKBA), scheduling conflicts among specialty trades are a leading cause of renovation delays. The dedicated designer model addresses these challenges by having one professional manage all trade coordination and permit requirements with the Town of Cary and Wake County authorities.

According to the 2025 Cost vs. Value Report published by Remodeling Magazine and Zonda, a midrange bathroom remodel averages \$25,251 nationally and returns approximately 74 percent at resale. In the South Atlantic region, which includes North Carolina, midrange bathroom remodels returned 73.5 percent in the prior year, performing above the national average.

"A bathroom remodel touches plumbing, tile, lighting and layout all at once, which is exactly where projects tend to stall," said Emin Halac, CEO of USA Cabinet Store LLC. "Having a single designer coordinate every one of those trades is what keeps a Cary bathroom project on schedule."

The company includes initial project consultations and VR 3D design reviews as part of its preliminary evaluation phase. Consultations are available in multiple formats including in-store visits, virtual meetings, and quick-advice sessions. The approach to bathroom remodeling and renovation ensures that homeowners receive comprehensive project management throughout the entire process.

USA Cabinet Store LLC operates as part of a national network of more than 14 showrooms across seven states including Virginia, Maryland, North Carolina, Texas, New Jersey, Florida, and Tennessee. The Cary showroom carries nine cabinet lines ranging from ready-to-assemble through German-engineered frameless construction, including RTA Cabinets, Fabuwood, Showplace, UltraCraft, Mantra, Legacy Crafted, 1951 Cabinetry, Bertch, and Bauformat.

Founded in 2011, the company has completed thousands of kitchen and bath remodels across its multi-state footprint. The organization recently received the 2026 NKBA Innovative Showroom Award at KBIS 2026 in the Medium-Sized Kitchen & Bath Design Center category for its Houston, Texas design center. USA Cabinet Store LLC has also earned multiple Best of Houzz Service awards over consecutive years. The company maintains full licensing, bonding, and insurance coverage for all projects.
