

Cornerstone Handyman Painting & Staining Expands Painting and Staining Solutions for Joplin MO Homeowners

July 02, 2026

JOPLIN, MO - July 02, 2026 -
Cornerstone Handyman Services LLC has expanded its residential painting and staining services to meet growing demand from homeowners throughout the Joplin Metro area. The comprehensive service expansion addresses both interior and exterior painting needs while offering specialized staining solutions for decks, fences, and outdoor wood structures.

The expanded service portfolio encompasses interior and exterior painting, wall and ceiling treatments, trim and door refinishing, deck staining and sealing, fence painting and restoration, and specialized wood staining applications. This development positions the company as a single-source provider for residential painting and staining projects across Southwest Missouri, including Carthage, Webb City, Carl Junction, and Neosho.

"Homeowners consistently tell us they want a reliable partner who can handle multiple aspects of their painting and staining needs," said Blake Anthony, owner of Cornerstone Handyman Services. "By expanding

our capabilities and streamlining our process, we can now address everything from small touch-up projects to complete exterior transformations while maintaining the personalized service that defines our approach."

The company has implemented a structured four-step process for all painting and staining projects. The process begins with a free estimate and consultation, followed by thorough preparation work including surface cleaning and protection of surrounding areas. Professional-grade materials are then applied using proven techniques, concluding with a detailed walkthrough to ensure customer satisfaction.

Cornerstone Handyman Services Painting & Staining now offers enhanced solutions for outdoor wood preservation, recognizing the importance of protecting exterior structures from Missouri's variable weather conditions. The service expansion includes pergola staining and sealing, exterior trim painting, and comprehensive deck restoration services that extend the life of outdoor living spaces.

The timing of this service expansion aligns with increased homeowner investment in property improvements throughout the region. Recent industry data indicates that painting and staining projects remain among the most cost-effective ways to enhance property value while protecting structural integrity.

"Our expanded painting services reflect the evolving needs of Joplin area homeowners who value both aesthetics and protection for their properties," added Anthony. "Whether addressing interior walls that need refreshing or exterior surfaces requiring weather protection, our team brings the same attention to detail and commitment to quality that has defined our work since day one."

Beyond painting and staining, the company maintains its comprehensive handyman service offerings including drywall repair, custom carpentry, basic plumbing and electrical work, and home renovation projects. This integrated approach allows homeowners to coordinate multiple improvement projects through a single trusted provider.

Cornerstone Handyman Services Local Painter expertise extends to both residential and light commercial properties throughout the service area. The company supplies professional-grade paints and stains while also accommodating customers who prefer to provide their own materials.

Cornerstone Handyman Services LLC continues to serve as a trusted resource for home maintenance and improvement throughout Southwest Missouri. The locally owned and operated company combines professional expertise with personalized service, treating each property with the care and attention that has established its reputation in the Joplin community.
