

Blue Sky Black Limo Service Adds Statewide Florida Chauffeur Routes

June 09, 2026

TAMPA, FL - June 09, 2026 -
Blue Sky Black Limo Service now books long-distance chauffeured trips from Tampa to Miami, Orlando, and West Palm Beach.

Blue Sky Black Limo Service, a Tampa limo service, now offers long-distance chauffeured travel from Tampa, FL to major cities across the state. The statewide expansion, announced in June 2026, connects Tampa with destinations including Miami, Orlando, and West Palm Beach under a single chauffeured booking.

The expansion positions Blue Sky Black Limo Service as a Tampa limo service that books rides well beyond the metro area. Travelers can reserve one-way or round-trip trips between Tampa and cities including Miami, Orlando, and West Palm Beach through Blue Sky Black Limo Service. Each route covers airport runs, cruise-port transfers, and intercity business travel.

The routes connect Tampa International Airport and Port Tampa Bay, the cruise terminals that move millions

of passengers a year, to destinations statewide. Chauffeurs run the I-4 corridor to Orlando, FL and travel south toward Miami, FL and West Palm Beach. The Tampa chauffeur service books trips across Hillsborough County and the wider Tampa Bay area.

For travelers, the change removes the need to switch between rideshare apps, rental cars, and airport shuttles for cross-state trips. A family heading to a Miami cruise or a sales team traveling to an Orlando conference can keep the same driver and vehicle for the full route. Fares are quoted per trip before booking.

Demand for ground transportation in Florida has followed record tourism. The state drew about 143 million visitors in 2024, its highest total on record, according to VISIT FLORIDA. Closer to home, Tampa International Airport reported a record 25.2 million passengers in fiscal year 2024, up 8.8% over its previous high, per the Hillsborough County Aviation Authority. Those arrivals feed steady demand for chauffeured trips beyond the Tampa, FL city limits.

The statewide routes are available by advance reservation. Blue Sky Black Limo Service assigns a chauffeur and a vehicle sized to the trip, from executive sedans for solo business travel to SUVs and stretch limousines for groups. Riders receive a flat quote before departure, and the company tracks flight and cruise schedules to adjust pickup times when arrivals shift.

"Most of our Tampa customers were already asking for rides to Orlando and Miami, the kind of cross-state trips that used to mean renting a car," said [Full Name], [Title] of Blue Sky Black Limo Service. "Running the full route with one chauffeur means they keep the same driver from the first mile to the last."

Rides with the Tampa limo service can be booked online or by phone, with quotes confirmed before pickup. Travelers can view coverage and request a statewide route through the company's Limousine service listing or by contacting the Tampa, FL office.
