Adams Pool Solutions Celebrates Seven Decades of Pool Remodeling Excellence in Pleasanton and Bay Area

June 11, 2026

PLEASANTON, CA - June 11, 2026 -
Adams Pool Solutions, a leading pool remodeling and resurfacing company headquartered in Pleasanton, California in the San Francisco Bay Area, marks over 70 years of transforming residential and commercial pools throughout the San Francisco Bay Area, Central Valley, and Monterey Peninsula. The family-operated company, established in 1953, has grown to become one of the most prolific pool renovation firms in the nation, completing approximately 1,200 projects annually with a workforce of 340 skilled professionals.

The company's enduring presence in the Tri-Valley region, encompassing Pleasanton, Danville, San Ramon, Dublin, and Livermore, reflects its commitment to quality craftsmanship and innovative pool renovation techniques. With more than 29,000 completed pool projects to date, the firm has established itself as the premier pool remodeling specialist in the Bay Area, offering comprehensive services that include pool resurfacing, tile and coping installation, and state-of-the-art surface preparation processes.

"Our seven decades of experience have taught us that every pool renovation project represents an opportunity to enhance both the aesthetic appeal and functional longevity of these important residential and commercial assets," said Ray Langford, Marketing Director at Adams Pool Solutions. "We've witnessed tremendous changes in pool technology and design preferences over the years, and our team has consistently adapted to deliver solutions that meet evolving homeowner expectations while maintaining the highest standards of craftsmanship."

The company's extensive portfolio includes residential pool renovations for Bay Area homeowners and commercial pool construction projects for hotels, municipalities, and educational institutions. This dual expertise enables the firm to apply commercial-grade techniques and materials to residential projects, ensuring superior durability and finish quality. The company's proprietary surface preparation process,

developed through decades of refinement, addresses common pool deterioration issues while preparing surfaces for long-lasting renovations.

Adams Pool Solutions maintains showroom facilities where property owners can explore various surface options, tile selections, and equipment upgrades. The company's design specialists work closely with clients to develop renovation plans that address both immediate repair needs and long-term maintenance considerations. This consultative approach has proven particularly valuable for older pools requiring comprehensive updates to meet current safety standards and energy efficiency requirements.

The firm's geographic reach extends across multiple Bay Area communities, with dedicated service teams familiar with local architectural styles and homeowner preferences. This regional expertise, combined with the company's substantial project volume, enables efficient scheduling and competitive pricing for pool renovation projects of varying scope and complexity.

Incorporated in 1974, Adams Pool Solutions has maintained its family-operated structure while scaling operations to meet growing demand for professional pool renovation services. The company's membership in industry organizations including the California Pool and Spa Association, National Plasterers Council, and Pool and Hot Tub Alliance demonstrates its commitment to professional standards and continuing education in pool construction and renovation techniques.

As the Bay Area's residential and commercial properties continue to age, the demand for expert pool renovation services remains strong. Adams Pool Solutions continues to invest in advanced equipment, training programs, and material innovations to serve property owners seeking to restore, update, or completely transform their existing pool facilities.
